## TABLE OF CONTENTS

- A. Annual Report Form**
- B. Transmittal Letter to TCEQ**
- C. Purpose of Program**
- D. Annual Reporting Information**
- E. Best Management Practices & Goals Met with Data Collected**
  - 1. Public Education and Involvement**
    - i. PEI-1 Storm Water Education to Students**
    - ii. PEI-2 Storm Water Website**
    - iii. PEI-2 Storm Water Brochures**
    - iv. PEI-4 Utility Bill Inserts**
    - v. PEI-5 Public Service Announcements**
    - vi. PEI-6 Storm Drain Marking**
    - vii. PEI-7 Reforestation Program**
    - viii. PEI-8 Storm Water Stakeholders Committee**
  - 2. Illicit Discharge Detection and Elimination**
    - i. ID-1 Storm Drain System Mapping**
    - ii. ID-2 Dry Weather Screening**
    - iii. ID-3 Illicit Discharge Investigations**
    - iv. ID-4 Reduce Illegal Dumping**
    - v. ID-5 Reduce Sanitary Sewer Overflows**
    - vi. ID-6 Household Hazardous Waste Disposal**
    - vii. ID-7 Used Oil Collection & Recycling**
  - 3. Construction Site Storm Water Runoff Control**
    - i. C-1 Erosion Control Site Plan Review**
    - ii. C-2 Construction Inspection**
    - iii. C-3 Receipt and Consideration of Information from Public**
  - 4. Post Construction Storm Water Management**
    - i. PC-1 Post Construction Ordinance**
    - ii. PC-2 Long Term Operation and Maintenance of BMP's**
  - 5. Good Housekeeping**
    - i. GH-1 Storm Water Pollution Prevention Training**
    - ii. GH-2 BMP/SO Manual for City Facilities**
    - iii. GH-3 Landscape & Lawncare**
    - iv. GH-4 Vehicle Maintenance**
    - v. GH-5 Roadway Cleaning**
    - vi. GH-6 Storm Drain System Cleaning**
    - vii. GH-7 Non-Storm Water Discharges – Dechlorination Equipment**
    - viii. GH-8 City-Owned Facilities**
- F. Appendix**
  - 1. Year One Program Summary**
  - 2. Next Reporting Year Program Summary**
  - 3. Proposed Changes to SWMP**
  - 4. Certification**
  - 5. Plan Schedule**

Re: Phase II MS4 Year One Annual Report Transmittal for CITY OF TEMPLE  
TPDES Permit Number: TXR040037

Dear Sir/Madam;

This letter serves to transmit the Year One Annual Report for the Texas Pollutant Discharge Elimination System Small Municipal Separate Storm Sewer System General Permit, Authorization Number TXR040037 for the CITY OF TEMPLE.

As required by the general permit, a copy of this submittal has also been mailed to the TCEQ's regional office in Waco, Texas.

Should you have any questions or need additional information, please feel free to contact me at 254/298-5660.

Sincerely,

Don Bond, P.E., CFM  
City Engineer  
City of Temple

Re: Phase II MS4 Year One Annual Report Transmittal for CITY OF TEMPLE  
TPDES Permit Number: TXR040037

Dear Sir/Madam;

This letter serves to transmit the Year One Annual Report for the Texas Pollutant Discharge Elimination System Small Municipal Separate Storm Sewer System General Permit, Authorization Number TXR040037 for the CITY OF TEMPLE.

Should you have any questions or need additional information, please feel free to contact me at 254/298-5660.

Sincerely,

Don Bond, P.E., CFM  
City Engineer  
City of Temple

## **1.0 PURPOSE OF PROGRAM**

The objective of this Storm Water Management Program (SWMP) is to develop a program pursuant to which the City of Temple can reduce the discharge of pollutants in storm water runoff to the maximum extent practicable (MEP). This Program was developed with much coordination between the City and the community to customize a program for Temple that meets state and federal program requirements and also utilizes current activities, addresses issues that are important to the community, and is economically feasible.

## **2.0 STATUS OF PERMIT COVERAGE**

The City of Temple submitted its NOI and SWMP to the Texas Commission on Environmental Quality (TCEQ) on or before June 11, 2014 for coverage under the Texas Pollutant Discharge Elimination System (TPDES) General Permit for Storm Water Discharges from Small MS4s, General Permit No. TXR040037. As of June 11, 2014, the NOI and SWMP are under administrative and technical review by TCEQ.

Upon completion of TCEQ's administrative and technical review and notification from the TCEQ Office of the Chief Clerk, the City will comply with public notice requirements by publishing notice in the newspaper of largest circulation in Bell County. The Temple Daily Telegram and the Killeen Daily Herald are roughly equal in their circulation; therefore, the City will publish in the local newspaper, the Temple Daily Telegram.

The notice will include the Executive Director of the TCEQ's preliminary determination on the NOI and SWMP. The notice must also include the following information:

- The legal name of the MS4 operator;
- Identification of whether the NOI is for a new small MS4 or a renewal of an existing operation;
- The City's address
- A brief summary of the information included in the NOI (general location and description of classified receiving waters that receive discharges from the Small MS4;
- The location and mailing address where the public may provide comments to TCEQ;
- The public location where copies of the NOI and SWMP, as well as the General Permit and the Executive Director's Fact Sheet, may be reviewed;
- If required by the Executive Director, the date, time, and location of the public meeting.

The public comment period begins on the first date that the notice is published and ends thirty days later, unless a public meeting is scheduled. If the TCEQ determines that there is significant public interest, the City will be instructed to publish a notice of public meeting and hold a public meeting in Bell County. If a public meeting is held, then the public comment period ends at the closing of the public meeting.

### 3.0 NOTICE OF CHANGE

Changes may be made to the SWMP during the permit term. Changes that are made to the SWMP before the NOI is approved by the TCEQ must be submitted in a letter providing supplemental information to the NOI.

Changes to the SWMP that are made after TCEQ approval of the NOI and SWMP may be made following written approval of the changes from the TCEQ, except that written approval is not required for the following changes:

- (a) Adding components, controls, or requirements to the SWMP; or replacing a BMP with an equivalent BMP, may be made by the permittee at any time upon submittal of a notice of change (NOC) form to the address specified on the form to the TCEQ.
  
- (b) Replacing a less effective or infeasible BMP specifically identified in the SWMP with an alternate BMP may be requested at any time. Changes must be submitted on an NOC form to the address specified on the form. Unless denied in writing by the TCEQ, the change shall be considered approved and may be implemented by the permittee 60 days from submitting the request. Such requests must include the following:
  - (1) An explanation of why the BMP was eliminated;
  - (2) An explanation of the effectiveness of the replacement BMP; and
  - (3) An explanation of why the replacement BMP is expected to achieve the goals of the replaced BMP

#### 4.0 ANNUAL REPORTING

A concise annual report must be submitted by the City of Temple to the Executive Director of the TCEQ within ninety days of the end of each permit year of the permit term. The annual report must be prepared and submitted regardless of whether the City's SWMP and NOI have been approved by TCEQ. The permit term began when the TPDES Small MS4 General Permit became effective on December 13, 2013. The permit years and deadlines for annual reports are specified below.

<u>Year</u>	<u>Reporting Cycle</u>	<u>Annual Report Due Date</u>
1	12/13/2013 – 12/12/2014	3/13/2015
2	12/13/2014 – 12/12/2015	3/13/2016
3	12/13/2015 – 12/12/2016	3/13/2017
4	12/13/2016 – 12/12/2017	3/13/2018
5	12/13/2017 – 12/12/2018	3/13/2019

A copy of the annual report must be readily available for review by authorized TCEQ personnel upon request. The report must contain a number of elements including:

- Status of compliance with permit conditions, an assessment of the appropriateness of the identified BMPs, progress towards achieving the statutory goal of reducing the discharge of pollutants to the MEP, the measurable goals for each of the MCMs, and an evaluation of the success of the implementation of the measurable goals
- Status of any additional control measures implemented by the permittee
- Any MCM activities implemented before permit issuance may be included as part of the first year's annual report.
- A summary of the results of the information (including monitoring data) collected and analyzed, if any
- A summary of activities planned for the next reporting cycle
- Proposed changes to the SWMP
- Number of municipal construction activities authorized under this general permit and total number of acres disturbed
- Number of non-municipal construction activities that occurred within the jurisdiction

This report serves as the Year 1 Annual Report for the City of Temple for the period of December 13, 2013 through December 12, 2014 and also includes activities that took place from August 13, 2013 through December 12, 2013 because the last permit year ended on August 12, 2013. It contains those elements outlined above. The annual report is organized by Minimum Control Measures with page summaries of the Year 2 activities; Year 3 planned activities, proposed changes and documentation provided for each BMP with implementation activities scheduled for Year 2. Documentation that the City has achieved the measurable goals is attached to each BMP annual report summary.

**Phase II (Small) MS Annual Report Form**  
**TPDES General Permit No. TXR040037**

**A. General Information**

Name of Permittee / MS4: City of Temple Annual Report Period: 12/13/2013 – 12/12/2014  
 Contact Name: Don Bond P.E., CFM Telephone Number: (254) 298-5660  
 Mailing Address: 3210 East Avenue H, Temple, Texas 76501 E-mail Address: dbond@templetx.gov

**B. SWMP Modifications and Additional Information.**

Include a brief explanation if you check "yes" to any of the following statements.

	YES <input type="checkbox"/>	NO <input checked="" type="checkbox"/>
1. Changes have been made or are proposed to the SWMP since the NOI or the last annual report, including changes in response to TCEQ's review. Proposed changes are documented in Annual Report and Letter of Change submitted to TCEQ.	YES <input type="checkbox"/>	NO <input checked="" type="checkbox"/>
<i>If YES, has the TCEQ approved the SWMP? If the SWMP has been approved, submit an NOC to describe the change. If the SWMP has not been approved, submit a letter so that changes may be considered during the SWMP review process. (During the first permit year, an NOC is not applicable).</i>	YES <input type="checkbox"/>	NO <input checked="" type="checkbox"/>
<i>If YES, indicate whether you have submitted an NOC (or letter) as required by the general permit, to document the changes to the SWMP.</i>	YES <input type="checkbox"/>	NO <input checked="" type="checkbox"/>
2. The MS4 has annexed lands.	YES <input type="checkbox"/>	NO <input checked="" type="checkbox"/>
3. A receiving water body is newly listed as impaired or a TMDL has been established.	YES <input type="checkbox"/>	NO <input checked="" type="checkbox"/>
4. The MS4 has conducted analytical monitoring of storm water quality. Please review BMP ID-2 Dry Weather Screening	YES <input checked="" type="checkbox"/>	NO <input type="checkbox"/>
5. The MS4 is relying on another government entity to satisfy some permit obligations.	YES <input type="checkbox"/>	NO <input checked="" type="checkbox"/>

Re: Impaired Water Body Results

---

**To Whom It May Concern:**

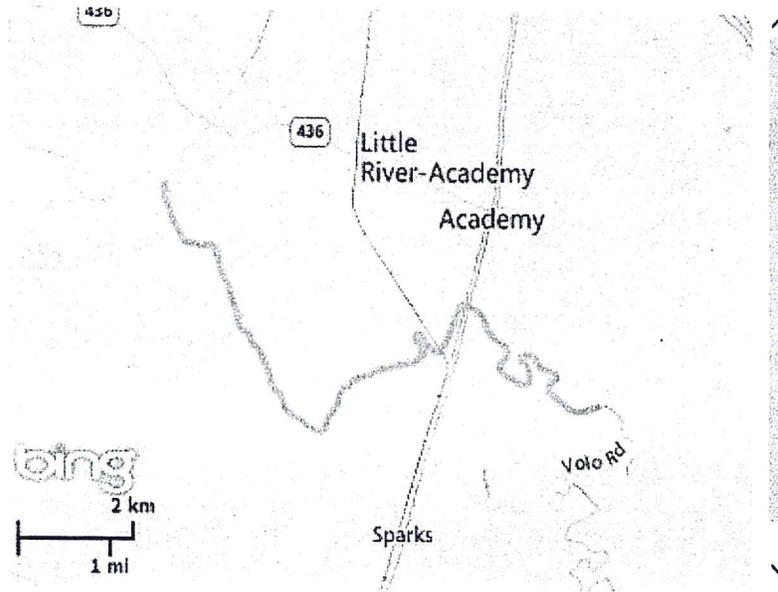

Little River has been declared an impaired water body by the EPA from the confluence with Boggy Creek. The pollutant of concern is e-coli. Water samples from Boggy Creek at the Temple city limits were collected for testing at a certified lab on three separate dates. Please see the lab results following this memo. It is our opinion that the City of Temple is not a significant source of the impairment due to low levels of e-coli in all three samples that were tested from Boggy Creek.

**State:** Texas  
**Waterbody ID:** TX-1213\_04  
**Location:** From confluence with Boggy Creek upstream to its confluence with Leon and Lampasas Rivers  
**State Waterbody Type:** Stream  
**EPA Waterbody Type:** Rivers and Streams  
**Water Size:** 8.76  
**Units:** miles  
**Watershed Name:** Little

### Final Report Cover Sheet

Report Identification Number: **WS8892**

Report Date: November 12, 2014

Project: Water Quality Assessment

**Qualifying Statement**

Results are an assessment of the sample aliquot delivered to the laboratory and are reported "As Received" on a wet basis unless otherwise indicated. All analyses were performed by this facility. Results generated by a subcontract laboratory will be qualified as such and the original report will be made available to the client upon request. The subcontract laboratory will be NELAP certified for the requested analysis if required by the client for the specified project. Waco Regional Water Quality Laboratory is a municipal laboratory and maintains NELAP certification through the Texas Commission on Environmental Quality, a recognized accreditation body under NELAC. Waco Regional Water Quality Laboratory also maintains recognition through the Texas Commission on Environmental Quality's Laboratory Approval Program for Public Water System drinking water analyses to include turbidity, pH, temperature, total organic carbon, UV 254, alkalinity, free and total chlorine, and phosphate. The Texas Commission on Environmental Quality does not offer NELAP certification for these drinking water parameters at this time. Test results are generated through implementation of a NELAC approved laboratory quality system and meet all requirements of that system unless otherwise noted in the qualifier section.

Project: Water Quality Assessment

**Qualifying Statement**

Results are an assessment of the sample aliquot delivered to the laboratory and are reported "As Received" on a wet basis unless otherwise indicated. All analyses were performed by this facility. Results generated by a subcontract laboratory will be qualified as such and the original report will be made available to the client upon request. The subcontract laboratory will be NELAP certified for the requested analysis if required by the client for the specified project. Waco Regional Water Quality Laboratory is a municipal laboratory and maintains NELAP certification through the Texas Commission on Environmental Quality, a recognized accreditation body under NELAC. Waco Regional Water Quality Laboratory also maintains recognition through the Texas Commission on Environmental Quality's Laboratory Approval Program for Public Water System drinking water analyses to include turbidity, pH, temperature, total organic carbon, UV 254, alkalinity, free and total chlorine, and phosphate. The Texas Commission on Environmental Quality does not offer NELAP certification for these drinking water parameters at this time. Test results are generated through implementation of a NELAC approved laboratory quality system and meet all requirements of that system unless otherwise noted in the qualifier section.

The following is a key to notations found in this report:

**CONTAINER**

P = Plastic	G = Glass	T = Teflon Cap
A = Amber	S = Sterile	
VOA = Volatile Organic Analysis (40mL-T)	NS = Not Standard for Analysis	

**SAMPLE TYPE**

G = Grab	C = Composite
----------	---------------

**REPORTING UNITS**

mg/L = milligrams per Liter	S.U. = Standard Units	°C = degrees Celsius
ug/L = micrograms per Liter	uS = microSiemens	cm-1 = per 1 centimeter path width
mpn = most probable number	L = Liter	mL = milliliter

**QUALITY CONTROL**

LRB = Laboratory Reagent Blank	LOQ = Limit of Quantification	LD = Laboratory Duplicate
LCS = Laboratory Control Standard	LFB = Laboratory Fortified Blank	QCS = Quality Control Standard
RPD = Relative Percent Difference	MS = Matrix Spike	MSD = Matrix Spike Duplicate
PQL = Practical Quantification Limit		

NA = Not Applicable	ND = Not Detected	NR = Not Recorded	NC = Not able to Calculate
---------------------	-------------------	-------------------	----------------------------

Date: 12/01/14

# STORM WATER MANAGEMENT PROGRAM – ANNUAL REPORT

	<b>REPORTING PERIOD:</b> <b>DECEMBER 13, 2013 – DECEMBER 12, 2014</b>	<b>YEAR 1</b>
	<b>STORM WATER WEB SITE</b>	<b>PEI-2</b>
<b>Responsible Authority</b> <b>*Storm Water Program</b>	<b>BMP DESCRIPTION</b> <p>The City developed a storm water web page on the City web site that specifically addresses storm water related issues. The Storm Water Web Site promotes and advertises upcoming Public Involvement events such as Storm Drain Marking (PEI-6) events, the City's Reforestation Program (PEI-7) and Stakeholders Meetings (PEI-8) through an on-line Community Events Calendar. The web site also publicizes storm water ordinances and illicit discharge BMPs such as Household Hazardous Waste Collection (ID-6) and Used Oil Collection and Recycling (ID-7). The web site is used to collect information submitted by the public regarding construction activities as required by TPDES regulations. The web page is able to reach a wide variety of audiences including residents, visitors, City employees, business owners, commercial and industrial operators and construction site operators.</p>

## Storm Water Management Program

**Terri Rodriguez - Storm Water Program Tech** [Email](#)

3210 East Avenue H, Bldg A, Ste 107, Temple, TX 76501  
Ph: (254) 298-5625 | Fax: (254) 298-5661  
Monday - Friday | 8:00 am - 5:00 pm

The objective of the **Storm Water Management Program (SWMP)** is to reduce the discharge of pollutants into our waterways to the maximum extent practicable. Through a coordinated effort between the City of Temple and the community, a program was customized to meet state and federal requirements, by using current activities to address important issues that are also economically feasible. City staff have undertaken several projects designed to maintain compliance with the requirements set forth by the Environmental Protection Agency (EPA) Clean Water Act, known as Phase II of the National Pollutant Discharge Elimination System (or NPDES; in Texas it is TPDES). The primary activities of the City of Temple SWMP include 28 Best Management Practices (BMP) divided into five (5) minimum control measures:

- [Public Education & Involvement](#)
- [Illicit Discharge Detection & Elimination](#)
- [Construction](#)
- Post-Construction
- Good Housekeeping

Surface water flowing in creeks and streams will be tested to identify and track contaminants in order to target inspection and prevention efforts and monitor storm water quality. The SWMP will also provide information and education programs to residents and business owners regarding steps that can be taken to avoid contributing to storm water problems. Key ingredients to a successful program includes the careful management and ultimate minimization of:

- Sources of storm water pollution
- Erosion along creeks and streams
- Sedimentation in waterways
- Flooding
- Aging Infrastructure
- Debris in creeks and streams

**STORM WATER MANAGEMENT PROGRAM – ANNUAL REPORT**

	<b>REPORTING PERIOD:</b> <b>DECEMBER 13, 2013 – DECEMBER 12, 2014</b>		<b>YEAR 1</b>
	<b>STORM WATER BROCHURES</b>		<b>PEI-3</b>
<b>Responsible Authority</b> * SWMP	<b>BMP DESCRIPTION</b> These are multi-page printed materials used to convey detailed information on specific topics related to storm water management. The brochures will be distributed to kiosks located at the City Hall, City Service Center, Temple Public Library, Frank W. Mayborn Convention Center, Chamber of Commerce and the Visitors Center. The brochures will also be available in PDF format on the City's Storm Water Web Page (PEI-2). The City will coordinate with local businesses to provide additional means of distributing the brochures at designated locations within these businesses. Targeted distribution of brochures will also be used to address specific issues. An example of this would be distributing brochures on the proper disposal of grease in a neighborhood that has been experiencing line blockages due to grease.		
	<b>ACTIVITIES PLANNED FOR NEXT REPORTING PERIOD</b> <ul style="list-style-type: none"> <li>Distribute 1,000 brochures</li> </ul>		
<b>Appropriateness of BMP</b> <input checked="" type="checkbox"/> Yes <input type="checkbox"/> No If No: <input type="checkbox"/> Changes Proposed <input type="checkbox"/> NOC Submitted Date _____	<b>PROPOSED CHANGE</b> None		
<b>Measurable Goal Successfully Implemented?</b> <input checked="" type="checkbox"/> Yes <input type="checkbox"/> No	<b>PROGRESS DURING CURRENT REPORTING PERIOD</b> The City of Temple has designed a new brochure and door hanger for this permit term to help educate the public by raising awareness on storm water related issues.		
<b>Implementation Activity</b>	<b>Measurable Goal</b>	<b>Completion Date</b>	
<ul style="list-style-type: none"> <li>Design brochure &amp; door hanger.</li> </ul>	<ul style="list-style-type: none"> <li>Provide sample of new brochure.</li> </ul>	12/5/2014

**Only Rain  
Down the Drain**

City of Temple  
Storm Water Program  
254.298.5625  
[www.templetx.gov](http://www.templetx.gov)

**Did you know that what you do on your property affects our water system?**

Storm Water is the water that originates during a precipitation event, such as rain or snow, and enters the Storm Drainage System.

**Q: Where does the Storm Drainage System discharge?**

**A: Storm Water always ends up in our waterways which include streams, creeks, rivers, lakes and the ocean.**

**How can you help?**

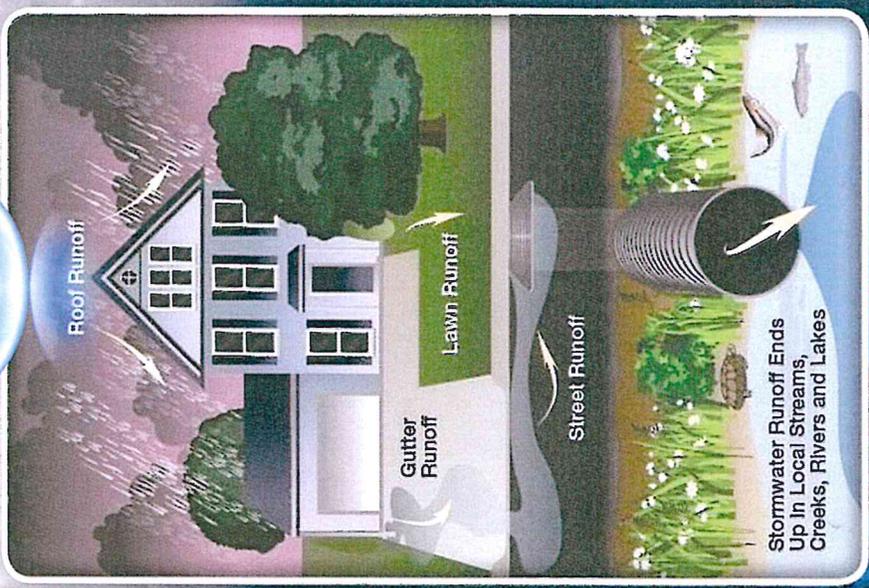

Wash your car on the lawn or at a car wash

Pick up pet waste

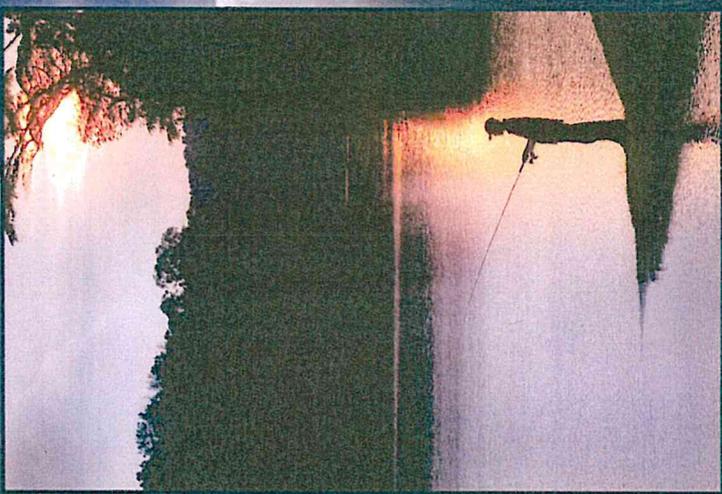

Never dump anything down a storm drain

Reduce your use of fertilizers and pesticides

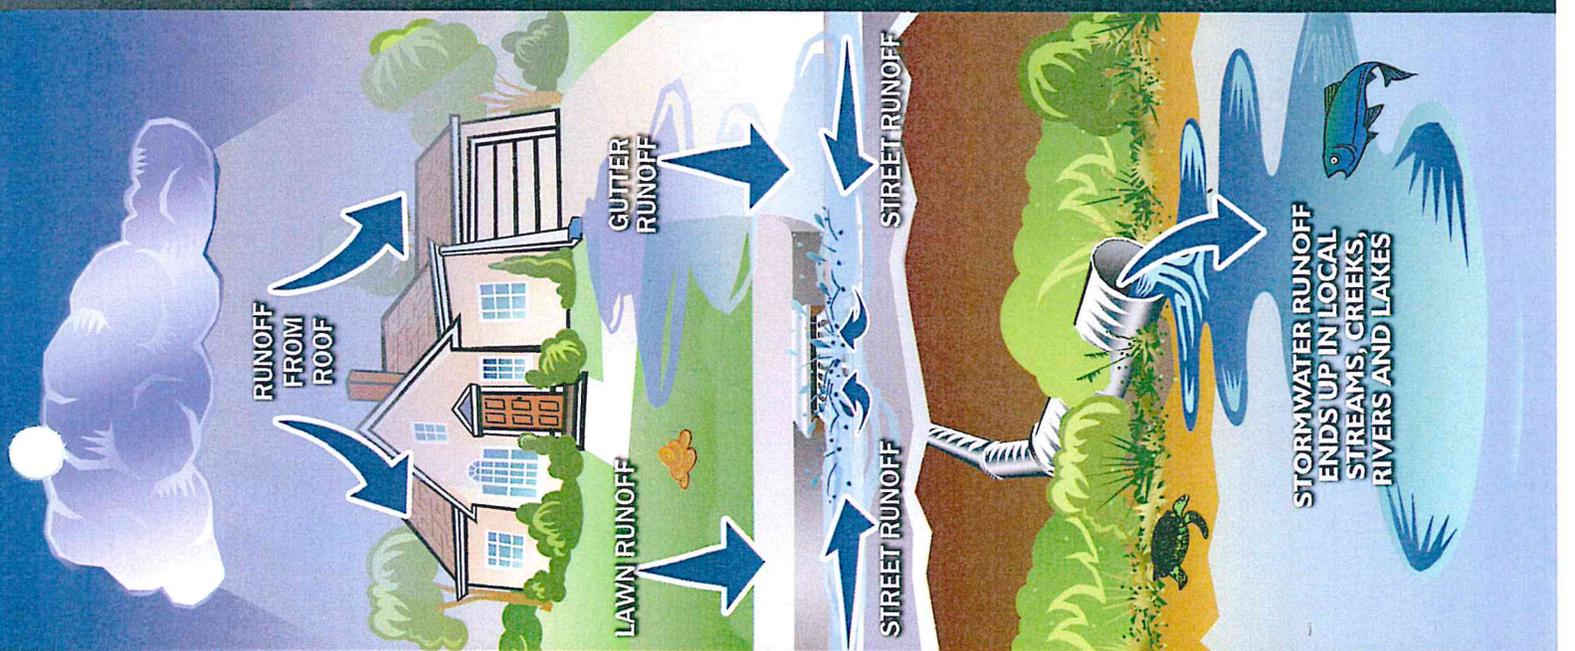

# Stormwater Pollution Prevention

For more information please contact:

City of Temple  
 Storm Water Program  
 254.298.5625  
[www.templetx.gov](http://www.templetx.gov)

# Please think about your actions at home, work and in public places and how they may impact our waterways

*Storm Water is the water that originates during a precipitation event, such as rain or snow, and enters the Storm Drainage System.*

**Q:** Where does the Storm Drainage System discharge?

**A:** Storm Water always ends up in our waterways which include streams, creeks, rivers, lakes and the ocean.

## Pollutants found in Storm Water

-  Oil, grease, metals and coolants from vehicles
-  Fertilizers, pesticides and other chemicals from gardens and homes
-  Bacteria from pet waste and failing septic systems
-  Soil from construction sites and other bare ground
-  Soaps/detergents from car or equipment washing
-  Accidental spills, leaky storage containers, tobacco spit and whatever else ends up on the ground

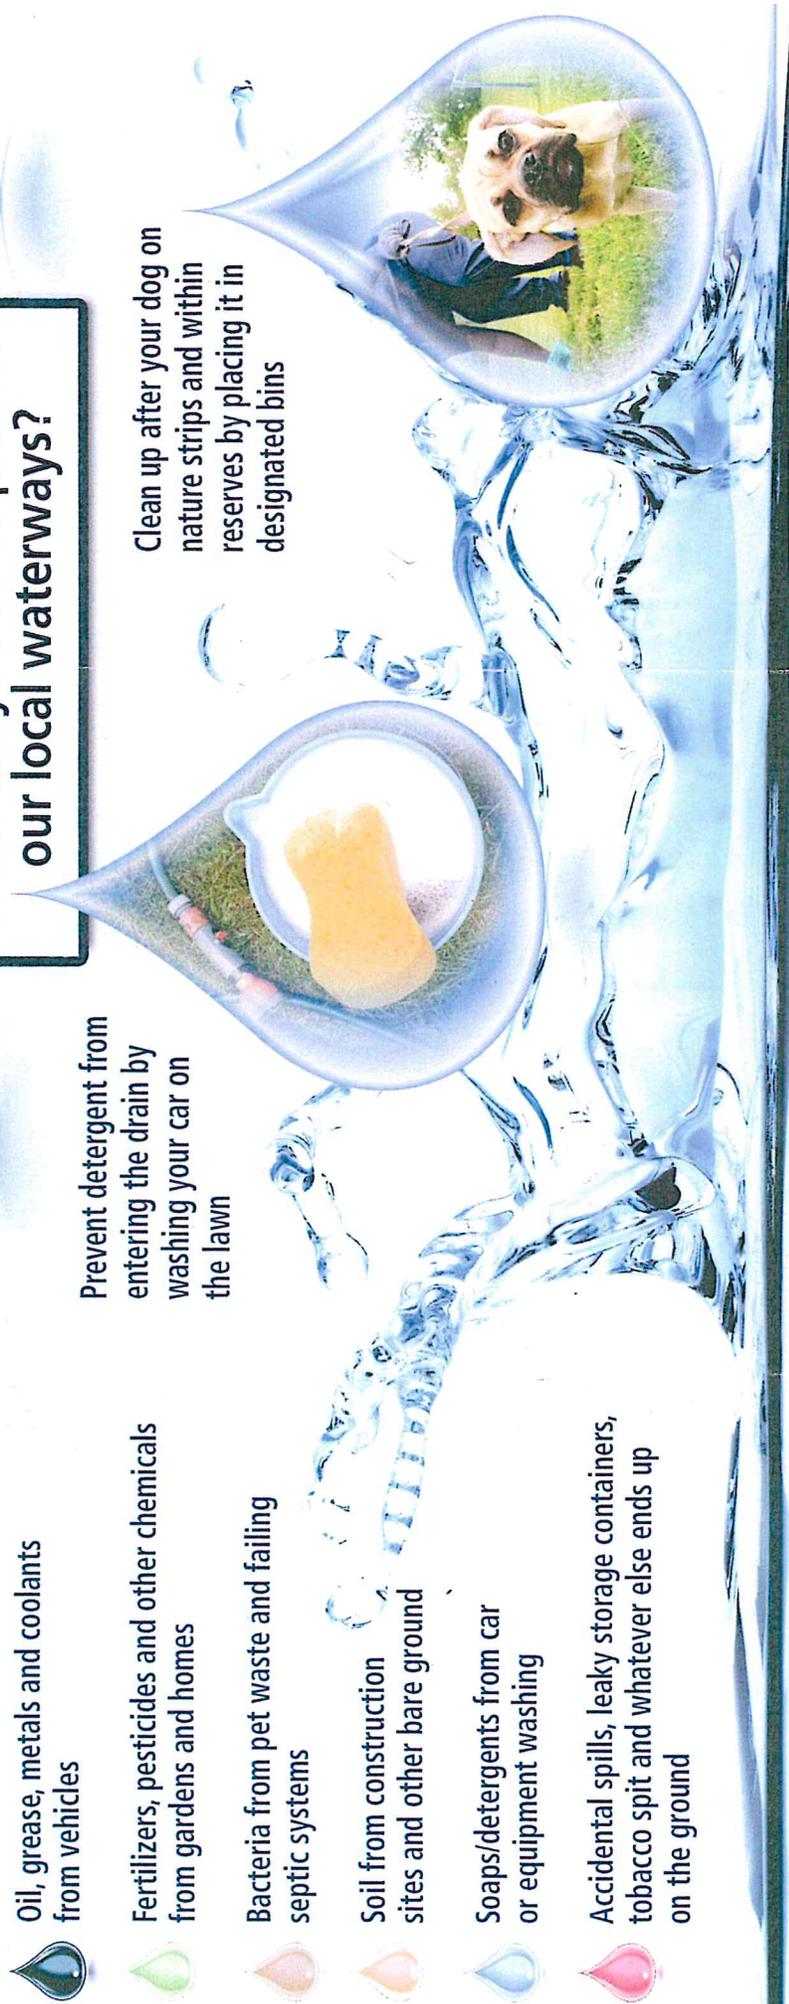

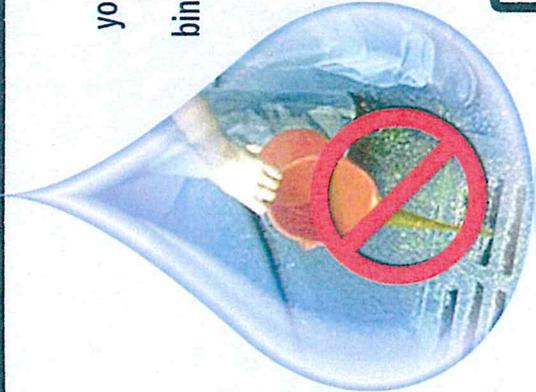

Compost or place your garden clippings in the green-waste bin instead of pushing it down the drain

Apply any excess paint onto an absorbent material such as an old rag or newspaper. When the paint is dry, then dispose of it with the rest of your household waste

## What can you do to protect our local waterways?

Prevent detergent from entering the drain by washing your car on the lawn

Clean up after your dog on nature strips and within reserves by placing it in designated bins

# STORM WATER MANAGEMENT PROGRAM – ANNUAL REPORT

	<b>REPORTING PERIOD:</b> <b>DECEMBER 13, 2013 – DECEMBER 12, 2014</b>	<b>YEAR 1</b>
	<b>UTILITY BILL INSERTS</b>	
<b>Responsible Authority</b> <b>*Solid Waste &amp; SWMP</b>	<b>BMP DESCRIPTION</b> These are short printed inserts that are included in Temple's water utility bill to educate the public with brief and concise information on a variety of storm water related topics. The following messages are suggested for utility bill inserts: <ul style="list-style-type: none"> <li>• Inserts to explain the storm water utility fee (if modified)</li> <li>• Advertisement of the City's Storm Water Web Site (PEI-2)</li> <li>• Advertisement of the City's Household Hazardous Waste Collection (ID-6)</li> <li>• Inserts informing the public of ordinances such prohibiting illicit discharge (ID-3) and Illegal Dumping (ID-4)</li> <li>• Promotion of the City's Used Oil Collection and Recycling Program (ID-7)</li> </ul>	
<b>Appropriateness of BMP</b> <input checked="" type="checkbox"/> Yes <input type="checkbox"/> No If No: <input type="checkbox"/> Changes Proposed <input type="checkbox"/> NOC Submitted Date _____	<b>ACTIVITIES PLANNED FOR NEXT REPORTING PERIOD</b> <ul style="list-style-type: none"> <li>• Distribute 1 insert</li> </ul>	
<b>Measurable Goal Successfully Implemented?</b> <input checked="" type="checkbox"/> Yes <input type="checkbox"/> No	<b>PROPOSED CHANGE</b> None	
<b>PROGRESS DURING CURRENT REPORTING PERIOD</b> The City of Temple will utilize resident's water bill to help educate them on the City's web site. This bill insert will run for the entire month of June 2014 to all water customers within the limits of the City of Temple.		
<b>Implementation Activity</b>	<b>Measurable Goal</b>	<b>Completion Date</b>
<ul style="list-style-type: none"> <li>• Distribute 1 insert</li> </ul>	<ul style="list-style-type: none"> <li>• 1 insert distributed</li> </ul>	6/3/2014

# STORM WATER MANAGEMENT PROGRAM – ANNUAL REPORT

	<b>REPORTING PERIOD:</b> <b>DECEMBER 13, 2013 – DECEMBER 12, 2014</b>		<b>YEAR 1</b>
	<b>PUBLIC SERVICE ANNOUNCEMENT</b>		<b>PEI-5</b>
<b>Responsible Authority</b>  * Storm Water Management Program	<b>BMP DESCRIPTION</b> These are announcements broadcast on local media that address storm water related topics such as recycling, proper pesticide and fertilizer use, and proper household chemicals disposal. The City of Temple will utilize spots that are available on the City's Time Warner cable access channel. Public service announcements will highlight special events such as the City's annual Household Hazardous Waste Disposal program (ID-6) and Storm Drain Marking events (PEI-6). The PSAs will also promote the City's Public Works Week (PEI-1) and on-going programs such as Used Oil Collection and Recycling (ID-7).		
<b>Appropriateness of BMP</b> <input checked="" type="checkbox"/> Yes <input type="checkbox"/> No If No: <input type="checkbox"/> Changes Proposed <input type="checkbox"/> NOC Submitted Date _____	<b>ACTIVITIES PLANNED FOR NEXT REPORTING PERIOD</b> <ul style="list-style-type: none"> <li>Select storm water messages(TV)</li> <li>Broadcast 6 storm water messages(TV)</li> </ul>		
<b>Measurable Goal Successfully Implemented?</b>  <input checked="" type="checkbox"/> Yes <input type="checkbox"/> No	<b>PROPOSED CHANGE</b> None		
<b>PROGRESS DURING CURRENT REPORTING PERIOD</b> The City of Temple utilizes spots on the City's designated channel to announce various City programs. These announcements cycle through every few minutes. The events chosen this year were the City's Tree Planting Event, The Storm Drain Marking Event, Household Hazardous Waste Collection Days, Public Works Week and Illegal Dumping.

## Media Release

Point of Contact:

Shannon Gowan, Director of Communications

Nicole Torralva, P.E., Public Works Director

**FOR IMMEDIATE RELEASE**

254.298.5600 office

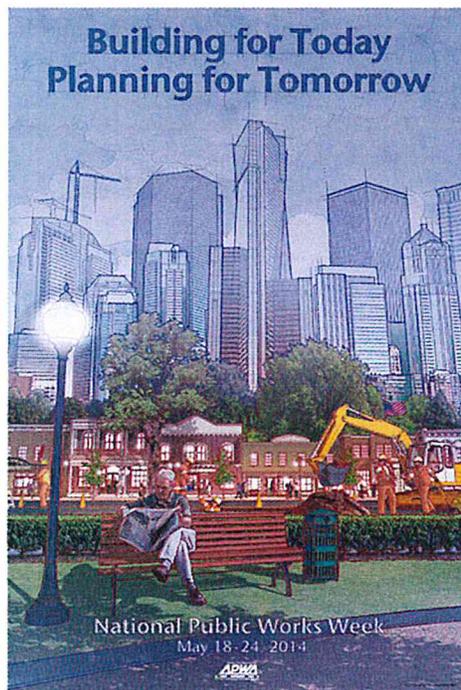

254.298.5621 office

### **City of Temple Celebrates National Public Works Week**

*TEMPLE, TX, (May 15, 2014)* – During the week of May 18<sup>th</sup> through May 24<sup>th</sup>, the City of Temple will be recognizing the contributions of employees within the Public Works Department who provide and maintain essential infrastructure and services to the community. Nearly 185 public works employees, serving within 11 divisions (Water Treatment, Water Distribution, Wastewater Collection, Wastewater Treatment, Solid Waste, Street Services, Traffic Signal, Drainage, Fleet Services, Engineering, and Administration) work day and night, 24/7/365, to ensure that core City services are sustained to the 70,000+ residents of the City and traveling public.

Paved roads, clean drinking water, and sanitary neighborhoods are all key services of Public Works. The Public Works Team is committed and dedicated to improving the quality of life for present and future generations through the on-going construction and maintenance of necessary infrastructure within the community. “Public Works personnel are the unsung heroes of our community, providing services that are paramount to the safety and well being of the public. That’s Public Works at its best, people working behind the scenes to making life easier for everyone in the community”, comments Nicole Torralva, P.E., Public Works Director.

Instituted as a public education campaign by the American Public Works Association (APWA) in 1960, National Public Works Week calls attention to the importance of public works in community life. The week seeks to enhance the prestige of the often unsung heroes of our society, the professionals who serve the public good every day with quiet dedication. Throughout the week of May 18<sup>th</sup> –24<sup>th</sup>, various events will be conducted within the Public Works Department in the City of Temple in recognition of the dedication of these employees and their service to the community. Citizens in the community are invited to attend Public Works Community Day, to be held at the Frank Mayborn Civic & Convention Center (3300 N. 3<sup>rd</sup> St.) on Monday, May 19<sup>th</sup> from 9:00 a.m. to 12:00 p.m. -- come visit with Public Works employees and see displays and equipment used by City crews each and every day.

**PUBLIC WORKS DAY IN THE COMMUNITY 2014**

## Illegal Dumping

The disposal of waste  
in an unpermitted area.

### How You Can Help Prevent Pollution:

- Please report any illegal dumping to the City of Temple Code Enforcement office.
- If someone is dumping liquid or trash into a storm drain, that is also illegal dumping and should be reported to the Storm Water Program.

Code Enforcement – (254)298-5670

Storm Water Program – (254)298-5625

# Household Hazardous Waste Collection

**FOR IMMEDIATE RELEASE**

### **Storm Drain Marking Event Scheduled for October 25th**

**(TEMPLE, TX – October 17, 2014)** The City of Temple Storm Water Program, along with the City's Mapping Department, will be hosting the annual storm drain marking event on Saturday, October 25, at 10 a.m. in the Sage Meadows Phase I subdivision in Temple.

"Storm Drain Marking programs are part of our public education program in the City's Stormwater Management Plan," states Temple's Stormwater Program Tech Terri Rodriguez. "The Hitmen" youth baseball team will volunteer their time by affixing steel buttons that say "No Dumping, Drains to Creek" to 31 storm drain inlets within the Sage Meadows Phase I subdivision.

"Anything that enters a storm drain inlet is discharged untreated into our waterways such as streams, creek, rivers and lakes." says Rodriguez. "Debris, chemicals, dirt and other pollutants that enter a storm inlet will affect the same water that we use for swimming, fishing and ultimately it is where our drinking water originates before treatment."

The Stormwater office would like to thank the Temple Mapping Department for assisting with this event and would also like to recognize the boys on the Hitmen baseball team for their participation in the event.

Any questions regarding the event can be directed to Terri Rodriguez at Temple's Stormwater Management Program office, (254)298-5625 or [trodriguez@templetx.gov](mailto:trodriguez@templetx.gov).

## Annual Storm Drain Marking Event Saturday October 25, 2014 at 10:00 am.

- The City of Temple Storm Water Program and Mapping Department will be hosting this event in the Sage Meadows Phase I subdivision in Temple.
- The Hitmen baseball team will be affixing steel buttons with the message “No Dumping, Drains to Creek” on 31 storm drain inlets.

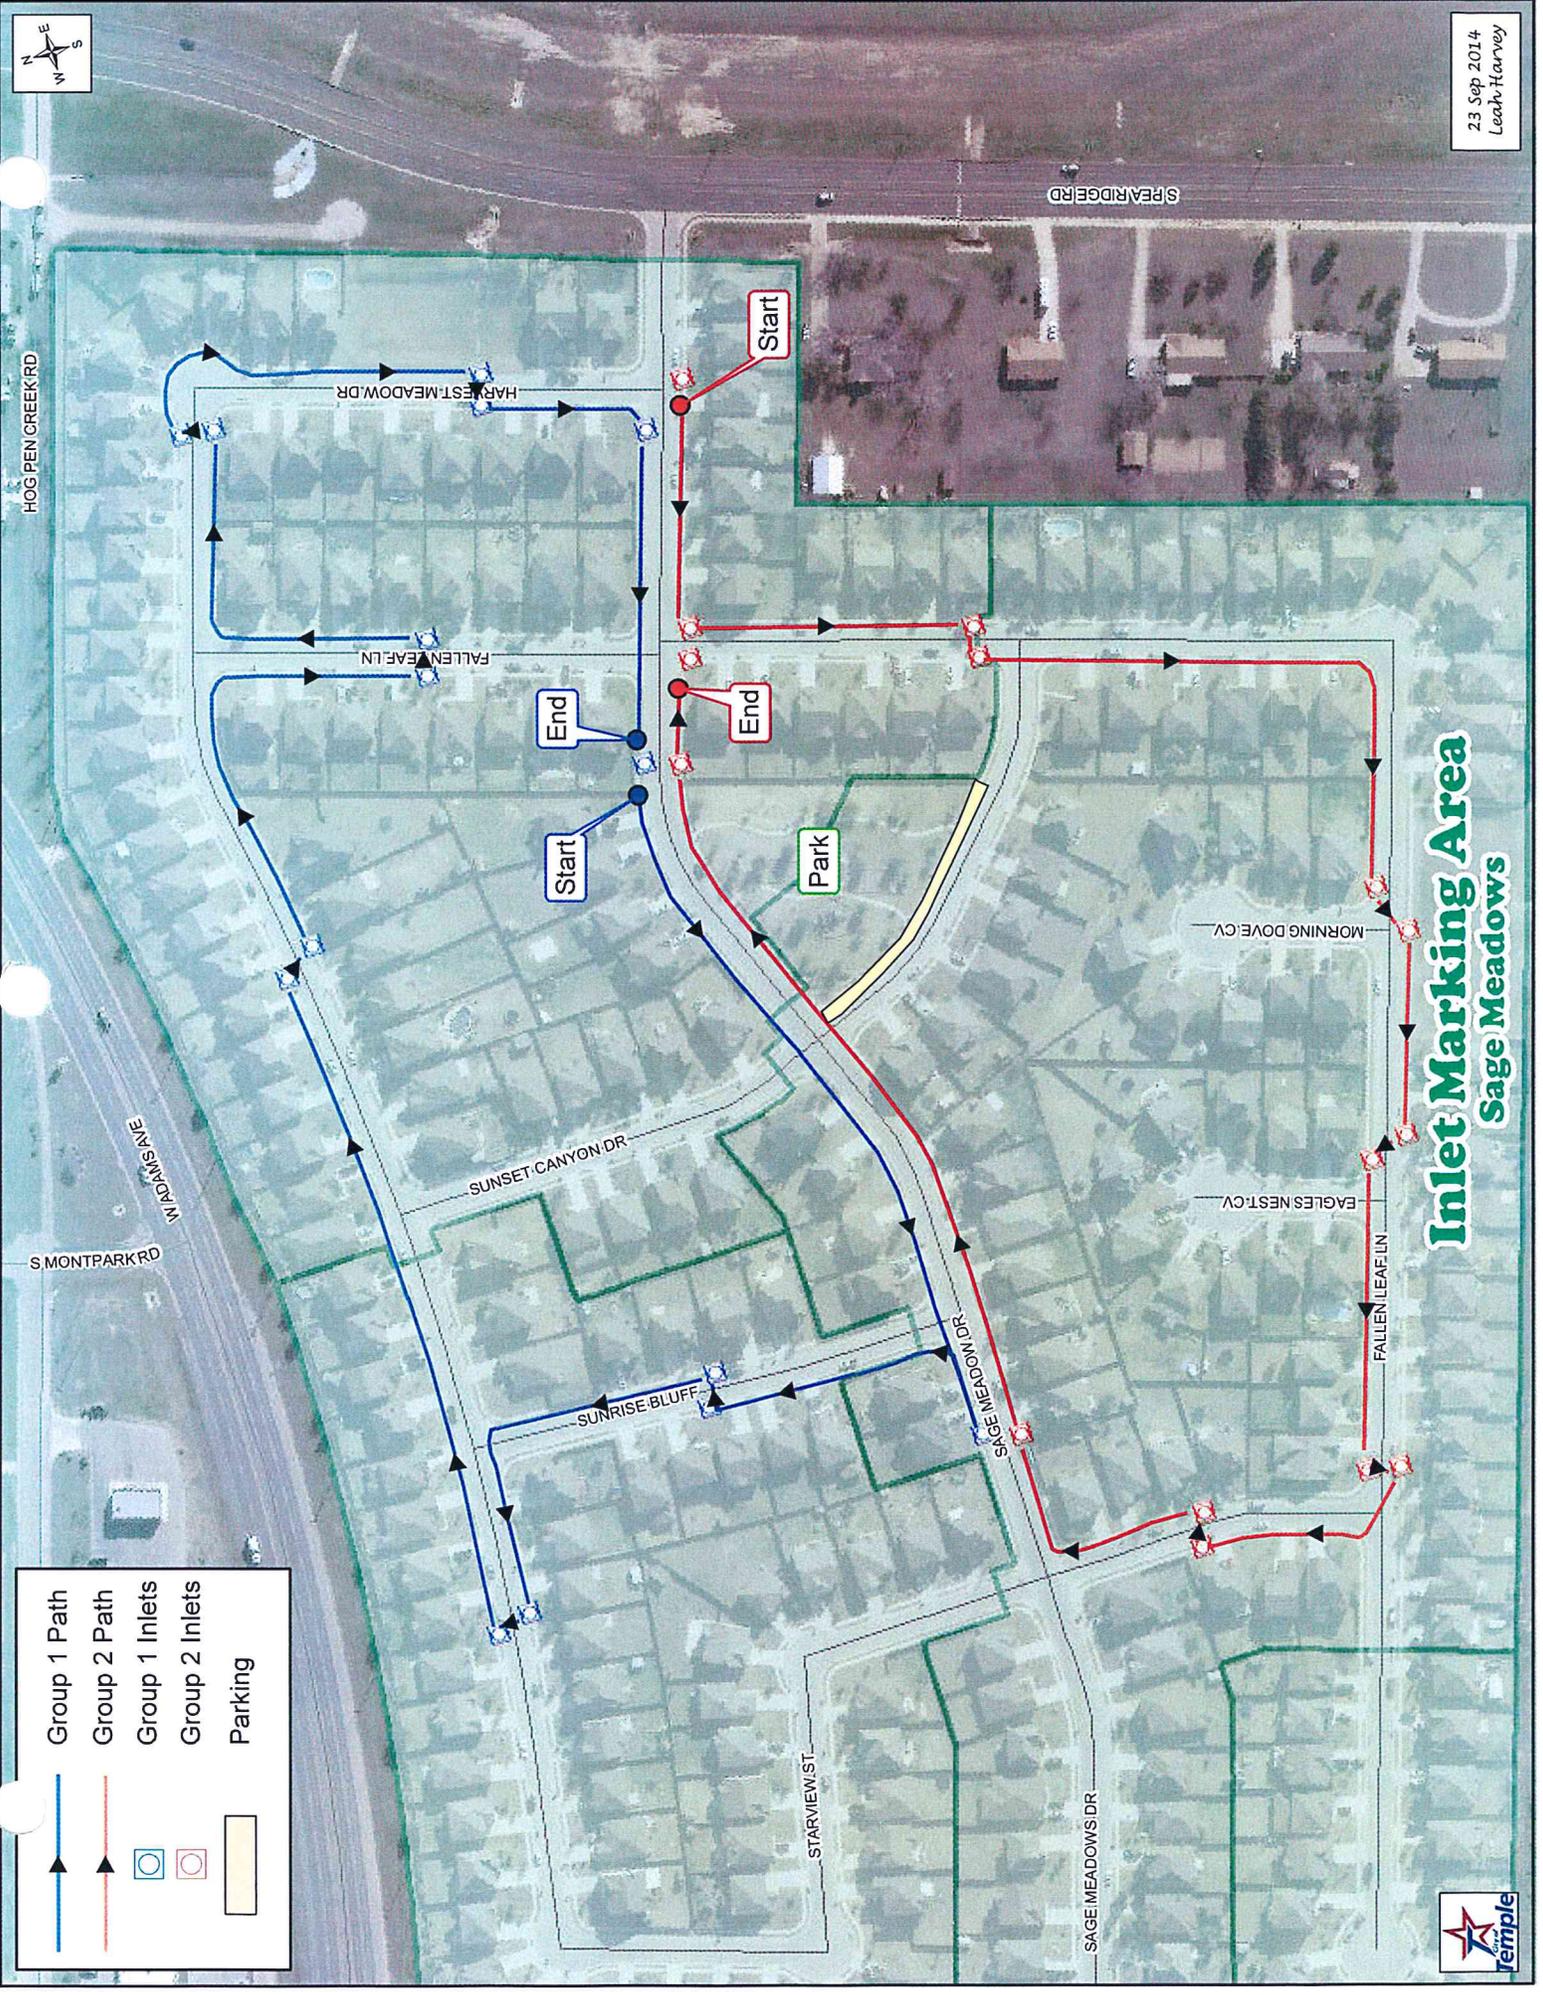

- Anything that enters a storm drain inlet discharges into our waterways and pollutants in this discharge will affect aquatic life and human life.

**STORM WATER MANAGEMENT PROGRAM – ANNUAL REPORT**

	<b>REPORTING PERIOD:</b> <b>DECEMBER 13, 2013 – DECEMBER 12, 2014</b>		<b>YEAR 1</b>
	<b>STORM DRAIN MARKING</b>		<b>PEI-6</b>
<b>Responsible Authority</b>  *SWMP Mapping	<b>BMP DESCRIPTION</b>  This activity consists of volunteers affixing steel buttons with a “Don’t Dump, Drains to Creek” message to storm drain inlets. This marking effort will focus on all areas of the City. Students and involved community citizens can mark inlets through classroom education projects and community involvement projects. Temple will try to utilize as many organizations as possible including Boy Scouts / Girl Scouts and Youth Sports Leagues to mark the inlets. Establishing this BMP in this manner will provide many educational opportunities as well as getting the job done. Developing guidance documents and storm drain inlet maps will standardize the process and also allow the City to direct volunteers to locations where buttons have not been applied. The City’s GIS department will then update the maps in preparation for next year’s event. Events will be publicized through various Public Education BMPs including the Storm Water Web Site (PEI-2) and PSAs (PEI-5).		
<b>Appropriateness of BMP</b> <input checked="" type="checkbox"/> Yes <input type="checkbox"/> No If No: <input type="checkbox"/> Changes Proposed <input type="checkbox"/> NOC Submitted Date _____	<b>ACTIVITIES PLANNED FOR NEXT REPORTING PERIOD</b> <ul style="list-style-type: none"> <li>At least 1 marking event</li> </ul>		
<b>Measurable Goal Successfully Implemented?</b>  <input checked="" type="checkbox"/> Yes <input type="checkbox"/> No	<b>PROPOSED CHANGE</b> None		
<b>PROGRESS DURING CURRENT REPORTING PERIOD</b> The SWMP organized volunteers to place Storm Drain Markers on Curb Inlets/Storm drains in the Sage Meadows Phase I neighborhood. This event took place on <b>October 25, 2014</b> with volunteers consisting of a local youth baseball team named the “Hitmen”. A total of <u>31</u> storm drain inlets were marked.			
<b>Implementation Activity</b>	<b>Measurable Goal</b>	<b>Completion Date</b>

- The City of Temple Storm Water Program and Mapping Department will be hosting this event in the Sage Meadows Phase I subdivision in Temple.
- The Hitmen baseball team will be affixing steel buttons with the message “No Dumping, Drains to Creek” on 31 storm drain inlets.

Anything that enters a storm drain inlet discharges into our waterways and pollutants in this discharge will affect aquatic life and human life.

# STORM WATER MANAGEMENT PROGRAM – ANNUAL REPORT

	<b>REPORTING PERIOD:</b> DECEMBER 13, 2013 – DECEMBER 12, 2014		YEAR 1
	<b>REFORESTATION PROGRAMS</b>		PEI-7
<b>Responsible Authority</b> * Storm Water Management Program Parks & Leisure Services	<b>BMP DESCRIPTION</b> Reforestation programs strive to preserve and restore forested buffers adjacent to water bodies. These programs utilize volunteers to initiate tree-planting activities to establish forested buffers along stream corridors. Trees and forested buffers reduce runoff through interception and increased infiltration. Forested buffers act to filter pollutants, reduce flood hazards, provide shade and aesthetic benefits, provide wildlife habitat and reduce urban heat index. This BMP will be integrated with existing programs and organizations such as Keep Temple Beautiful (KTB). Temple has earned the designation of Tree City USA and has an annual A Tree For Me tree giveaway. The City maintains a tree nursery and the Parks Department employs an urban forester to investigate violations of the tree ordinance.		
<b>Appropriateness of BMP</b> <input checked="" type="checkbox"/> Yes <input type="checkbox"/> No If No: <input type="checkbox"/> Changes Proposed <input type="checkbox"/> NOC Submitted Date _____	<b>ACTIVITIES PLANNED FOR NEXT REPORTING PERIOD</b> <ul style="list-style-type: none"> <li>• Co-sponsor 1 tree planting event</li> <li>• Post event on activities calendar on web site</li> <li>• 1 media announcement (PSA)</li> </ul>		
<b>Measurable Goal Successfully Implemented?</b> <input checked="" type="checkbox"/> Yes <input type="checkbox"/> No	<b>PROPOSED CHANGE</b> None		
<b>PROGRESS DURING CURRENT REPORTING PERIOD</b> The City of Temple successfully planned and sponsored one tree planting event. The Storm Water Management Program partnered with the Parks and Leisure's Department, Central Texas Master Naturalist and Boy Scout Troop #153. Trees were planted at <b>Conner Park</b> . A total of <b>25</b> trees were planted.			
<b>Implementation Activity</b> <ul style="list-style-type: none"> <li>• Co-sponsor 1 tree planting event</li> <li>• Post event on activities calendar on web site</li> <li>• 1 media announcement (PSA)</li> </ul>	<b>Measurable Goal</b> <ul style="list-style-type: none"> <li>• Plan &amp; host 1 tree planting event.</li> </ul>	<b>Completion Date</b> 1/18/2014

**FOR IMMEDIATE RELEASE**

### **Tree Planting Event Scheduled for January 18<sup>th</sup>**

**(TEMPLE, TX – January 14, 2014)** The City of Temple Storm Water Program will be hosting an annual tree planting event on Saturday, January 18<sup>th</sup>, at Conner Park in Temple.

“Reforestation programs are part of our public education program in the City’s Storm Water Management Plan,” states Temple’s Storm Water Program Tech Terri Rodriguez. “Tree roots help hold the soil in place thus reducing erosion of soil into our waterways.

“Last year, 14 trees were planted in the event at Conner Park on Old Waco Road in Temple. This year, we plan to plant 25 trees at the park,” continues Rodriguez. “This will help to create a nice shady environment at the park and reduce the community’s effective heat index for the citizens of Temple to enjoy the Park even more.”

“This program is very special to me because it’s making a difference,” says Rodriguez. “Storm water runoff is a major cause of pollution in our rivers, lakes, streams, and creeks. Planting trees near these waterways is one way to help with this problem.”

The Storm Water office would like to thank the Temple Parks and Leisure Services Department for making this event possible and would also like to recognize the local Boy Scouts for their participation in the event.

Any questions regarding the event can be directed to Terri Rodriguez at Temple’s Stormwater Management Program office, (254)298-5625 or [trodriguez@templetx.gov](mailto:trodriguez@templetx.gov).

Yes, the date and time are good.

Phil

On Wed, Dec 11, 2013 at 8:02 AM, Terri Rodriguez <[trodriguez@templetx.gov](mailto:trodriguez@templetx.gov)> wrote:

Yes, you are correct. It should work the same. The City will have the holes ready and we will just need to put the trees in the holes and cover with dirt. Also, the Parks Department has changed the number of trees that they want planted to 25. That is fine with me if it doesn't take 3 hours. I was told by others that are involved to allow 9:00 am to 12:00 pm, just to have extra time if needed, if we finish early then that's great! Is the date and time still good with you all?

**Subject:** Re: tree planting event - City of Temple

In the past, the City of Temple workers have had the hole for the trees already dug. We only need the shovels to fill in the dirt when we place the tree in the hole. Is that the way this will be done? If so, this will not take 3 hours. It will only take about one hour or less. If we have to dig the hole, then, in may take 3 hours.

Thanks,

Phil Everett

We had a meeting at Conner Park (408 Old Waco Rd) this morning and have decided that the tree planting event will take place on January 18, 2014 at 9:00 am. I estimate that it will take about 3 hours. We will provide some shovels but if you all have extras to bring along that day that would be great. We will be planting a total of 21 trees that day. Please let me know that all of this still works for you all. I am looking very forward to meeting you!

Thank you so much for your participation!

I would first like to thank all of you for coming to the meeting this morning and showing concern for subjects in the City of Temple's Storm Water Program.

The link below will take you to the Solid Waste Division's Web Site and there is contact information provided for you to address your concerns about having more than one Household Hazardous Waste event each year. (Lisa, this is why I copied you on this email. There was some discussion this morning about needing to have more than one event.)

<http://www.templetx.gov/index.aspx?NID=343>

The link below is our ordinance that talks about the Storm Water Management Plan that is required for any land disturbance of 1 acre or more. Again, this applies to the Engineer. See Sec.27-5 on page 5 of this ordinance. I have also attached a "sample storm water management plan" to give an idea of what is expected.

<http://www.ci.temple.tx.us/documentcenter/view/5369>

I will start issuing construction inspection reports electronically to those whom I have email addresses for. Please contact me if you have any other questions.

Thank you,

Terri Rodriguez

## Storm Water Management Program

Terri Rodriguez, Drainage Division, EM&I

3210 East Avenue H, Bldg A, Ste 107, Temple, TX 76701  
 PH: (254) 298-5635 | Fax: (254) 298-5661  
 Monday - Friday 8:00 am - 5:00 pm

The objective of the Storm Water Management Program (SWMP) is to reduce the discharge of pollutants into our waterways to the maximum extent practicable. Through a coordinated effort between the City of Temple and the community, a program was customized to meet state and federal requirements, by using various activities to address important issues that are also economically feasible. City staff have undertaken several projects designed to maintain compliance with the requirements set forth by the Environmental Protection Agency (EPA) Clean Water Act, known as Phase II of the National Pollutant Discharge Elimination System (NPDES), in Texas (40 CFR 122.26). The primary activities of the City of Temple SWMP include 34 Best Management Practices (BMP) divided into six sub-sections:

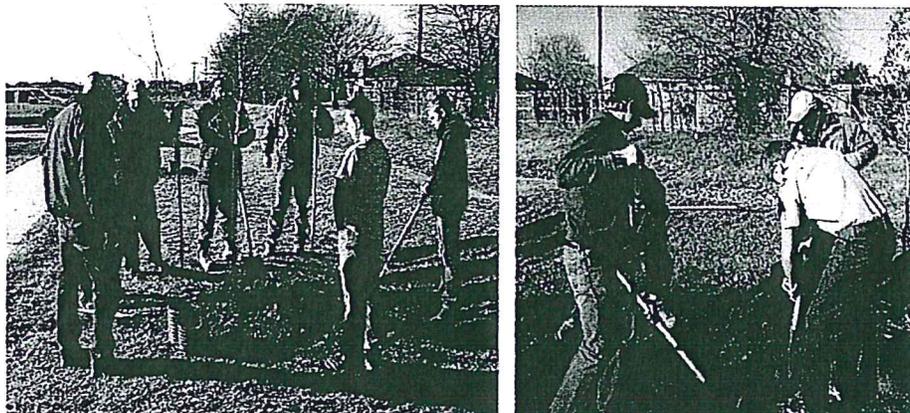

- Public Education
- Public Involvement
- Public Involvement/Outreach
- Construction
- Post-Construction
- Good Housekeeping

Surface water flowing in creeks and streams will be tested to identify and track contaminants in order to target inspection and prevention efforts and monitor storm water quality. The SWMP will also provide information and education programs to residents and business owners regarding steps that can be taken to avoid contributing to storm water problems. Key ingredients to a successful program includes the careful management and ultimate minimization of:

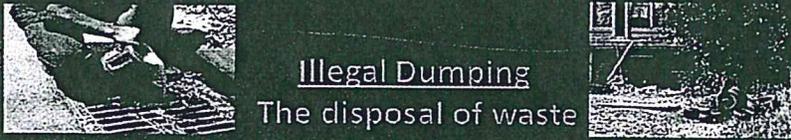

- Sources of storm water pollution
- Erosion along creeks and streams
- Sedimentation in waterways
- Flooding
- Aging Infrastructure

# PEI 7 – REFORESTATION PROGRAM

(JANUARY 18, 2014) – TREE ROOTS HELP HOLD THE SOIL IN PLACE THUS REDUCING EROSION OF SOIL INTO OUR WATERWAYS.

## ID 4 – REDUCE ILLEGAL DUMPING

**Illegal Dumping**  
The disposal of waste in an unpermitted area.

**How You Can Help Prevent Pollution:**

- Please report any illegal dumping to the City of Temple Code Enforcement office.
- If someone is dumping liquid or trash into a storm drain, that is also illegal dumping and should be reported to the Storm Water Program.

 Code Enforcement – (254)298-5670  
Storm Water Program – (254)298-5625

## C 2 – CONSTRUCTION INSPECTION

- × Develop on-site SWPPP inspection procedures
  - + All active construction sites (all BMP's)
- × Inspection report form
  - + Issued to the SWPPP contact person
- × Track all inspections & reports issued
  - + Available for TCEQ to view at all times

## GH 8 – CITY OWNED FACILITIES

- × Maintain an inventory of all City owned facilities & storm water controls.
- × Inspect all facilities in inventory.
- × Develop a map indicating the locations of all facilities.
- × New requirement in the permit

**QUESTIONS**

**STORM WATER MANAGEMENT PROGRAM – ANNUAL REPORT**

	<b>REPORTING PERIOD:</b> DECEMBER 13, 2013 – DECEMBER 12, 2014		YEAR 1
	<b>STORM DRAIN SYSTEM MAPPING</b>		ID-1
<b>Responsible Authority</b> * Drainage, Mapping & SWMP	<b>BMP DESCRIPTION</b> To facilitate their illicit discharge detection and elimination program, the City of Temple will develop a storm sewer system map, which identifies the location of all outfalls and the names and locations of the waters of the U.S. to which they drain. The location of pipes, ditches and other conveyances associated with the storm sewer system will also be identified. The City currently utilizes paper maps, which will be updated to a Geographic Information System (GIS) using existing drainage maps. Supplemental information on outfall locations will be derived from visual inspections along stream banks. Precise locations of outfalls will be determined through the use of a Global Positioning System (GPS) during the dry weather screening.		
	<b>Appropriateness of BMP</b> <input checked="" type="checkbox"/> Yes <input type="checkbox"/> No If No: <input type="checkbox"/> Changes Proposed <input type="checkbox"/> NOC Submitted Date _____		
	<b>ACTIVITIES PLANNED FOR NEXT REPORTING PERIOD</b> <ul style="list-style-type: none"> <li>• Locate and map outfalls –GPS</li> <li>• Update System Map – All watersheds</li> </ul>		
<b>Measurable Goal Successfully Implemented?</b> <input checked="" type="checkbox"/> Yes <input type="checkbox"/> No	<b>PROPOSED CHANGE</b> None		
<b>PROGRESS DURING CURRENT REPORTING PERIOD</b> Provide a map of the entire storm drain system for the City of Temple.

**STORM WATER MANAGEMENT PROGRAM – ANNUAL REPORT**

	<b>REPORTING PERIOD:</b> DECEMBER 13, 2013 – DECEMBER 12, 2014		YEAR 1
	<b>DRY WEATHER SCREENING</b>		ID-2
<b>Responsible Authority</b> * SWMP	<b>BMP DESCRIPTION</b> The City of Temple staff will perform dry weather screening. Staff will walk creeks during dry weather periods to make visual inspections and perform limited chemical analysis with field test kits to monitor for the presence of certain chemicals or pollutants. If the chemical analysis indicates a concentration of pollutant that is above the allowable threshold limits, further investigation will be required. The City may utilize GPS equipment to document the location of the field tests, allowing them to be related to locations on the GIS storm drain system map for future reference and to document precise locations if environmental concerns are identified.		
	<b>Appropriateness of BMP</b> <input checked="" type="checkbox"/> Yes <input type="checkbox"/> No If No: <input type="checkbox"/> Changes Proposed <input type="checkbox"/> NOC Submitted Date _____		
	<b>ACTIVITIES PLANNED FOR NEXT REPORTING PERIOD</b> <ul style="list-style-type: none"> <li>• Walk accessible reaches/perform test for all creeks within city limits</li> <li>• Maintain tracking system/verify GIS map</li> </ul>		
<b>Measurable Goal Successfully Implemented?</b> <input checked="" type="checkbox"/> Yes <input type="checkbox"/> No	<b>PROPOSED CHANGE</b> None		
<b>PROGRESS DURING CURRENT REPORTING PERIOD</b> The City of Temple staff performed dry weather screening along all creeks in the City limits. The Williamson branch, Little Elm Creek, Knob Creek, and Boggy Creek connect to the Little River (Segment 1213). Bird Creek, Friar's Creek, and Pepper Creek connect to the Leon River (Segment 1219). Limited chemical analysis with field test kits was performed at all creeks to monitor for the presence of certain chemicals or pollutants. No concerns were noted.			
<b>Implementation Activity</b>		<b>Measurable Goal</b>	<b>Completion Date</b>

## **Responding to Illicit Discharges and Spills**

### **(Procedures)**

1. Document the report of every incident.
2. Investigate every report of an illicit discharge or spill.
3. Take pictures of the discharge or spill on site.
4. Conduct water testing if necessary to determine what the discharge may be.
5. Use maps and check surrounding areas to help determine the source of the discharge or spill.
6. Notify the source to take proper actions on eliminating the illicit discharge.
7. Report any illegal activity or negative response to eliminating the problem to the City's Legal Department.
8. Document all actions taken in response to an illicit discharge or spill.

Hi Kevin,

I am not sure if you are the person I need to contact but I got reports today about blue paint being washed into the storm drain system coming from what I believe is Ferguson Park or a park in that same area (Adams & 22<sup>nd</sup>). Please see our Storm Water Ordinance about Illicit Discharges.

Can you please forward this to the proper person or let me know who I should contact.

It is believed that the illicit discharge that was detected at the Sammons Golf Course was a result of a diesel spill on the interstate. The Fire Department had a hazmat team go to the area and clean up the illicit discharge and also install controls to prevent any more of it from getting through to the lake that is on the golf course. These absorbent socks will remain in place at least until the next rain to be sure that no more diesel washes through the channel. I have attached pictures of the efforts made to solve this issue and it appears to me that most of the diesel has been soaked up out of the water. The Parks Department has been informed that it is safe to water their grass now but I recommended they monitor it as their water comes from the lake that contained the illicit discharge. Please let me know if there are any more questions about this.

## TEMPLE SAMMON'S PARK

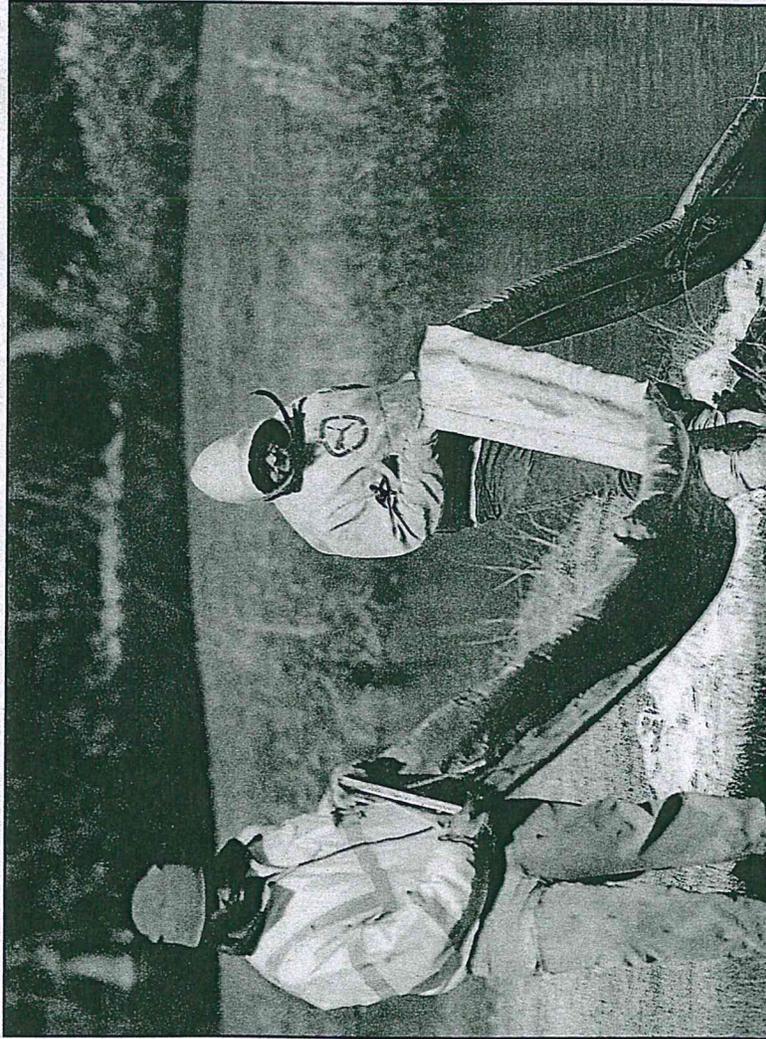

# Fuel spill impacts park

BY DEBORAH McKEON  
TELEGRAM STAFF WRITER

An ongoing problem from a Nov. 5 diesel fuel spill led to a more extensive cleanup near the Sammons Golf Links and the Sammons Park Lake, Temple spokeswoman Shannon Gowan said Wednesday.

The initial spill happened after an 18-wheeler pulling a trailer loaded with food products jackknifed on Interstate 35 near mile marker 300 and hit the retaining wall. The accident caused a puncture to the fuel tank, Temple Police Department spokesman Cpl. Christopher Wilcox said after the accident.

About 100 gallons of diesel fuel spilled onto the roadway and flowed into a storm drain leading from where the Ralph Wilson Youth Clubs used to be located to the golf course, Gowan said.

## TEMPLE DISTRICT 2 FORUM

# Leaders urge residents to get involved

BY JANICE GIBBS  
TELEGRAM STAFF WRITER

Temple city staff participated in a District 2 Forum on Tuesday at Wheatley School to discuss Community Development Block Grants and other initiatives in the city, such as the Transformation Team.

The goal of the forum was to provide information and possibly clarification on Temple programs, said Sonjnette Crossley, president of Citizens for Progress.

About 20 people attended the forum.

Those who stay informed are empowered, District 2 Council member E. J. McKeon said.

"It's up to our residents to make the difference. If you don't speak up, there won't be any change." — District 2 Council member Judy Mora

Jonathan Graham said, "We're not just doing code enforcement." Graham said. Funding for the program comes from U.S. Department of Housing and Urban Development. Temple received \$400,000 annually.

puncture to the fuel tank, Temple Police Department spokesman Cpl. Christopher Wilcox said after the accident.

About 100 gallons of diesel fuel spilled onto the roadway and flowed into a storm drain leading from where the Ralph Wilson Youth Clubs used to be located to the golf course, Gowman said.

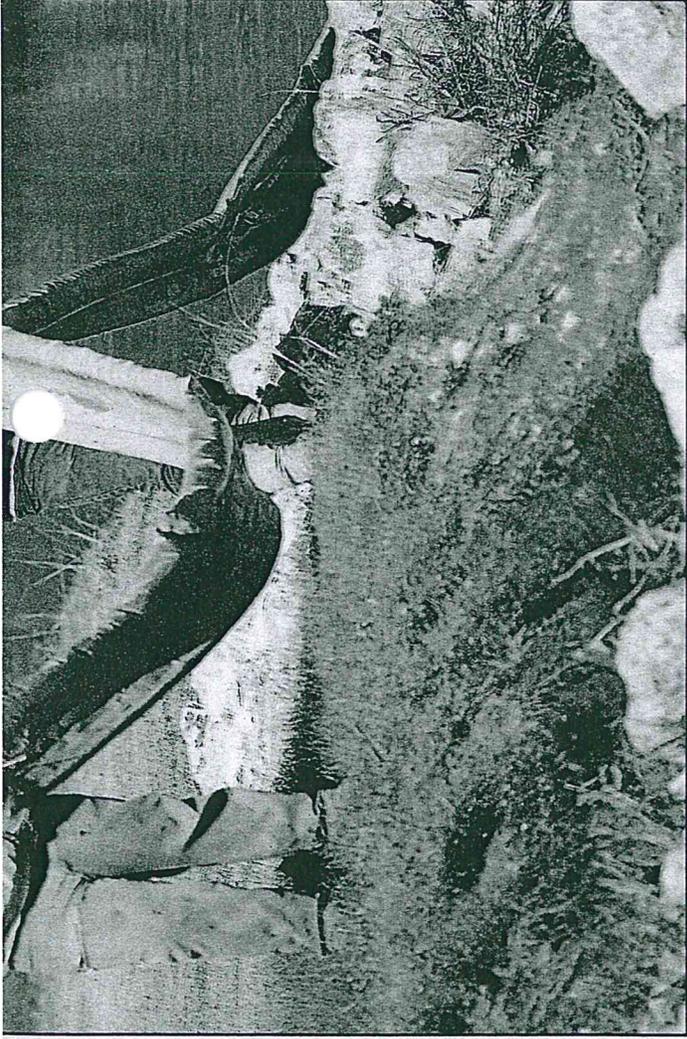

The interstate was closed for more than four hours while Grones Environmental Services cleaned up the spill, Temple Fire & Rescue spokesman Thomas Pechal said.

It was raining the day of the fuel spill, which caused the diesel fuel to spread more quickly on the roadway and into other areas, Pechal said.

A small amount of diesel fuel was discovered two days later at Sammons Park Lake, so

## NATION IMMIGRATION

*Rusty Schramm/Telegram*

Members of Grones Environmental HazMat team from Waco work Wednesday to clear a creek at Sammon's Golf Links in Temple.

The goal of the forum was to provide information and possibly clarification on Temple programs, said Sonjanette Crossley, president of Citizens for Progress.

About 20 people attended the forum.

Those who stay informed are empowered, District 2 Councilwoman Judy Morales said.

"It's up to our residents to make the difference," Morales said. "If you don't speak up, there won't be change."

The Neighborhood Pride program is a public/private partnership that will furnish equipment to community members who have cleanup projects in their neighborhoods, Temple City Manager

Jonathan Graham said. "We're not just doing code enforcement," Graham said.

Funding for the program comes from U.S. Department of Housing and Urban Development.

Temple receives \$400,000 annually from the Community Development

grants and the grants has steadily decreased over the past year, Ashley Williams

said. Williams is the services manager. The money can be used for infrastructure, public agencies and administrative costs.

**Please see TE**

## BELTON ISD

# District trackin

...il:4...at...

# Spill

Continued from 1A

Grones Environmental Services set up booms in the water to contain the fuel and keep it from spreading.

On Wednesday Grones Environmental Services placed soaker pads in the vicinity to catch any additional discharge that may have come through the channel, Gowan said. The company is waiting for the next rainfall to finish the cleanup so that it is sure it has entirely cleaned up the fuel.

When the cleanup is finished, the booms will be disposed of, Pechal said.

Small diesel spills will usually evaporate and disperse naturally within a day or less, according to the U.S. Department of Commerce, National Oceanic and Atmospheric Administration. But the action of the water will quickly disperse it, too.

Diesel is considered to be one of the most acutely toxic oil types, according to NOAA. Fish and invertebrates that come in direct contact with a diesel spill may be killed, and fish kills have been reported for small spills in confined, shallow water.

dmckeon@tdtnews.com

of blight and Mexico need that has a particular urgency, Williams said.

The city submits a 5-year plan that gives a broad overview of projects, and the next Community Development Block Grant long-term plan for 2015-20 is being developed now.

"We also submit 1-year plans that lay out what is going to be done that year," she said.

There is a focus on fair housing, which includes homeless needs and special needs.

The process includes a citizen participation plan that informs residents how to be involved in providing input through public hearings and community meetings, Williams said.

ilities, food and shelter for victims of domestic violence across the community and life skill classes, she said.

"There are a lot of ways to spend these monies and the funds are limited," Graham said.

How the funds are allocated is decided by the Council and they need everybody's input on what projects should receive a piece of the grant, he said.

Much of the money goes to programs projects that serve East Temple.

"A lot of money has gone into infrastructure projects that you can't see," Crossley said.

Several years ago Citizens for Progress was instrumental in getting money allocated to improving sewer lines in the

job is to focus on target areas," she said.

The crew will help educate property owners on the code compliance process. Initially, it will give property owners the chance to address issues such as cleaning up junk and debris, Meyer said.

The goal is for the team to be visible in the community and work with the city to find volunteer groups to assist if the property owner is elderly or disabled and doesn't have the resources to take care of the problem on their own.

"We need your help in developing the list of resources that would be interested in helping us make a difference," Meyer said.

If six volunteers or house-

think might wipe out the area who's

Morales encouraged the forum to serve on one of the projects that provide direct economic building and stabilization and leisure and recreation.

"A lot of the work with these booms move through the city," she said.

MOW GRASS CRM 13191		OPEN
DRAINAGE DITCH OVERGROWN, NEEDS MOWING		OPEN
DRAINAGE PROBLEM, WANTS TO DO SOME WORK, WATER COMING ACROSS CULVERT WASHING OUT HIS DIRT, CAN WE GET WITH HIM TO HELP HIM OTO FIX PROBLEM		OPEN
DRAINAGE PROBLEM, UNROOTING TREES 1300 BLK 49TH E SIDE		OPEN
ALLEY DRAINAGE- WATER STAND, INFRONT OF HOUSE WASHING AWAY BETWEEN HOUSES		OPEN
BEHIND APTS THERE IS DRAINAGE CHANNEL. IT IS ERODING AND HAS STALE WATER. CAN WE FIX CHANNELL		OPEN
DRAINAGE ISSUE WANTS INLET OR SOMETHING DONE TO GET WATER FF PROPERY GET PLATOS WHEN RAINING		OPEN
LOG IN CREEK (20IN AROUND) BLOCKING CREEK NEEDS CLEANING OUT AS WELL		OPEN
SHE HAS DRAINAGE DITCH BESIDE HER HOME. SHE WANTS THE DITCH MOWED AND CLEANED OUT		OPEN

DRAINAGE ISSUE, WATER STILL COMING IN DRIVEWAY AND INTO GARAGE, SHE WANTS SOMETHING DONE IMMEDIATELY. WE HAVE PUT OUT ROCKS AND A HUMP TO DIVERT WATER. STILL ISNT WORKING. PLEASE GET WITH HER SOON		OPEN
BOTH SIDESE OF CREEK NEEDS TO BE CLEANED. TREES AND WEEDS UNDER BRIDGE		OPEN
DRAINAGE ISSUE INFRONT OF HOUSE SIMILAR TO MR MESKE		OPEN
SHE WANTS DRAINAGE CHANNEL MOWED		OPEN
GET THE BRUSH OUT OF THE CREEK AND CLEAN THE CREEK OUT. THERE IS A DEAD TREE THAT FELL ALSO BURN ALL BRUSH DO NOT LEAVE IT IN THE CREEK TO WASH DOWN.		OPEN
UNDER NEATH BRIDGE NEEDS TO BE CLEANED UP FROM TREES IN AREA		OPEN
OPEN UP DRAIN- FLOODING OFFICE		OPEN
DRAINAGE IS NOT DRAINING, FLOODING		OPEN
WANTS A BIG PIPE SO WHEN IT RAINS THE WATER DOESN'T GO UNDER HER HOUSE. IT WASHES THE DIRT AWAY FROM UNDER HER HOUSE		OPEN
CONCRETE DRAINAGE BEHIND HIS HOUSE HAS MUD IN IT		OPEN
CULVERT HOLDS WATER CAN YOU FUX		OPEN
THERE IS A DRAINAGE DITCH EITHER BY HER HOUSE OR ACROSS THE STREET, SHE WOULD LIKE IT CLANED OUT		OPEN
HAS DRAINAGE ISSUE: EVERYTIME IT RAINS IT WASHER EVERYONES GRASS AND DEBRIS DOWN TO DRAIN , STOP UP GRATE FLOODS OUT HIS YARD, NOT HAPPY. DRAINAGE IS LOCATED BETWEEN 2 HOUSES AT PUT OF CUL DR SAC. PLEASE CALL HIM HE WANTS TO DISCUSS THIS MATTER		OPEN
WANTS GRASS INFRONT OF FENCE MOWED- ACROSS THE STREET WHERE HORSES ARE (BY ENTRANCE OF LANDFILL) PLEASE CALL HER		OPEN
SOMEONE THREW TIRES IN THE CREEK		OPEN
FENCE WAS TAKING DOWN GO GOLLIE WASH, WANTS BACK UP , ALSO WANTS TO TALK ABOUT PUTTING ROCKS OR SOMETHING IN THERE WEEDS ARE GROWING UP, PLEASE CALL HER		OPEN
WATER ISSUES ON ROW		OPEN
UNDER BRIDGE LOTS OF LOGS LIMBS GRASS WANTS CLEAN. AFRIAD GET RAIN IT GOING TO FLOOD BRIDGE AND AREA AGAIN		OPEN
CLEAN OUT CREEK CONCRETE AND JUNK IN CREEK		OPEN
LADY SAID SHE CALLED NUMEROUS TIME, WE ADDED ASPHALT TO DRIVEWAY, NOT WATER DOES NOT FLOW TO DRAINAGE INLET IT STOPS AT THIS DRIVEWAY, PLEASE FIX CAN WE REMOVE ASHPALT OR FIX IN ANOTHER WAY		OPEN

# STORM WATER MANAGEMENT PROGRAM – ANNUAL REPORT

	<b>REPORTING PERIOD:</b> <b>DECEMBER 13, 2013 – DECEMBER 12, 2014</b>		<b>YEAR 1</b>
	<b>REDUCE ILLEGAL DUMPING</b>		<b>ID-4</b>
<b>Responsible Authority</b> * Storm Water Program Code Enforcement Solid Waste	<b>BMP DESCRIPTION</b> A plan to detect and address illegal dumping is a required component of illicit discharge detection and elimination, mandated under TPDES Phase II. Illegal dumping consists of disposal of waste in undesignated areas or pouring of liquid wastes or disposal of trash down storm drains. The most effective method of reducing illegal dumping is to implement an aggressive public education program.  The reduction and elimination of illegal dumping in Temple will depend on the implementation of a combination of enforcement and public education BMPs, which will inform citizens of the environmental concerns and legal implications of illegal dumping. Several of the public education BMPs including the Storm Water Web Site (PEI-2), PSAs (PEI-5), and Brochures (PEI-3) will be used to educate the public about illegal dumping.		
	<b>Appropriateness of BMP</b> <input checked="" type="checkbox"/> Yes <input type="checkbox"/> No If No: <input type="checkbox"/> Changes Proposed <input type="checkbox"/> NOC Submitted Prior _____		
	<b>ACTIVITIES PLANNED FOR NEXT REPORTING PERIOD</b> <ul style="list-style-type: none"> <li>• Enforce ordinance/maintain tracking system</li> <li>• Publicize with 1 PSA</li> </ul>		
<b>Measurable Goal Successfully Implemented?</b> <input checked="" type="checkbox"/> Yes <input type="checkbox"/> No	<b>PROPOSED CHANGE</b>  None		
<b>PROGRESS DURING CURRENT REPORTING PERIOD</b> The City of Temple's Construction Safety Department tracks and monitors all illegal dumping. They also determine if the City ordinance has been violated and enforce citations at that time accordingly.			
<b>Implementation Activity</b>		<b>Measurable Goal</b>	<b>Completion Date</b>

## Illegal Dumping The disposal of waste in an unpermitted area.

### How You Can Help Prevent Pollution:

- Please report any illegal dumping to the City of Temple Code Enforcement office.
- If someone is dumping liquid or trash into a storm drain, that is also illegal dumping and should be reported to the Storm Water Program.

Code Enforcement – (254)298-5670  
Storm Water Program – (254)298-5625

# Community Clean-up Day

**Date:** Saturday, April 5th

**Time:** 9:00 – 2:00

**Location:** Temple Service Center  
3210 East Ave H, Temple, Texas

## Automotive & Tire Recycling

- Up to 8 tires free- \$1.00 each after 8
- No tires on the rim
- No tires over 21.5" rim dimension

- Used Motor Oil & Used Oil Filters
- Antifreeze
- Automotive Batteries

**Temple Iron & Metal**

A Division of Bell County Iron & Recycling, Inc

## Building Material Recycling

- Doors
- Windows
- Plumbing and lighting fixtures
- Gently used furniture
- Hardware
- Sinks
- Toilets
- Working Appliances

## Batteries & Light Bulbs

- Batteries (including rechargeable and alkaline)
- All bulbs
- Ballasts

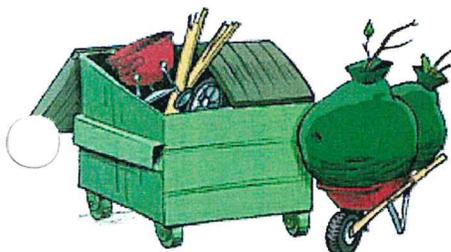

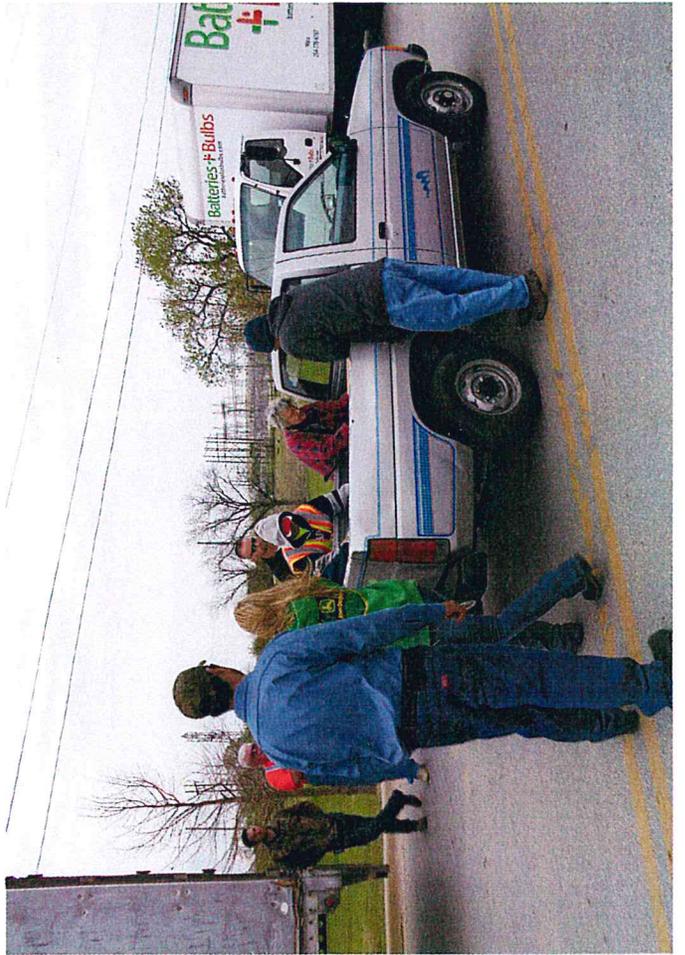

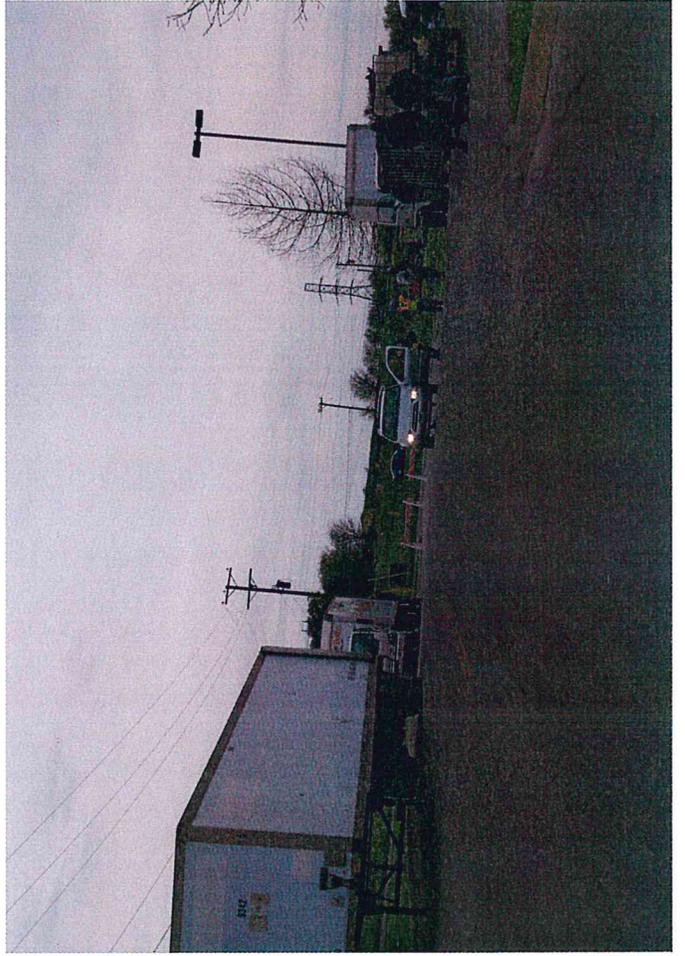

**Batteries + Bulbs**

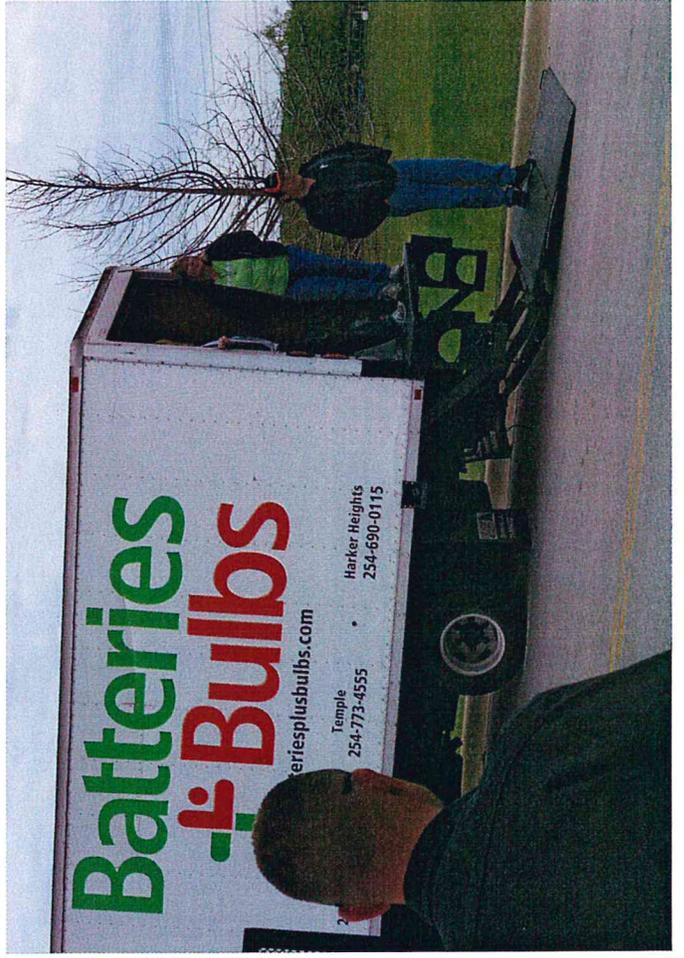

## Dumpster Locations for General Cleanup

*Dumpsters will be set on Friday and picked-up Monday*

- Corner of John Paul & Nugent
- Westwood Park
- Lakewood Ranch Club House
- Waters Dairy Road Park
- Mayborn Center at the dead-end
- Corner of Avenue C & MLK
- Irvin between 9th & 11th
- Lamar between 7th & 9th
- Corner of Avenue C & 22nd

# STORM WATER MANAGEMENT PROGRAM – ANNUAL REPORT

	<b>REPORTING PERIOD:</b> DECEMBER 13, 2013 – DECEMBER 12, 2014	YEAR 1
	<b>REDUCE SANITARY SEWER OVERFLOWS</b>	ID-5
<b>Responsible Authority</b> *Utility Services	<b>BMP DESCRIPTION</b> The City will continue to work towards eliminating sanitary sewer overflows (SSOs). These overflows can be caused by a number of factors including temporary blockages, flooding, and insufficient sewer capacity. Temple conducts periodic cleaning and preventative maintenance of the sewer system to prevent SSOs. The City is in the process of developing a grease trap ordinance to reduce the number of SSOs. The grease trap ordinance will include provisions for maintenance, sampling and owner notification.	
<b>Appropriateness of BMP</b> <input checked="" type="checkbox"/> Yes <input type="checkbox"/> No If No: <input type="checkbox"/> Changes Proposed <input type="checkbox"/> NOC Submitted Date _____	<b>ACTIVITIES PLANNED FOR NEXT REPORTING PERIOD</b> <ul style="list-style-type: none"> <li>• Cleaning/preventative maintenance</li> <li>• Staff tracking of all areas cleaned</li> </ul>	
<b>Measurable Goal Successfully Implemented?</b> <input checked="" type="checkbox"/> Yes <input type="checkbox"/> No	<b>PROPOSED CHANGE</b> None	
<b>PROGRESS DURING CURRENT REPORTING PERIOD</b> The City continued its cleaning and preventative maintenance program for the sanitary sewer system to prevent sanitary sewer overflows. The city exceeded its goal of cleaning 270,000 linear feet of sewer lines. The City cleaned a total of <b><u>1,591,788</u></b> linear feet.		
<b>Implementation Activity</b> <ul style="list-style-type: none"> <li>• Cleaning/preventative maintenance</li> <li>• Staff tracking of areas cleaned</li> </ul>	<b>Measurable Goal</b> <ul style="list-style-type: none"> <li>• Clean 270,000 linear feet/year</li> </ul>	<b>Completion Date</b> Monthly tracking

	<b>REPORTING PERIOD:</b> DECEMBER 13, 2013 – DECEMBER 12, 2014		YEAR 1
	<b>HOUSEHOLD HAZARDOUS WASTE DISPOSAL</b>		ID-6
<b>Responsible Authority</b> *Solid Waste	<b>BMP DESCRIPTION</b> The City of Temple currently participates in TCEQ’s annual household hazardous waste collection days for the proper disposal of items such as paints, pesticides, fertilizers and other household chemicals. Temple will continue to sponsor annual events. The first line of defense against improper disposal of HHW is through public education. Many residents are simply unaware of the hazards associated with these products and methods for proper disposal. Public education and outreach materials will inform the public about proper storage, handling, and disposal of hazardous chemicals. The HHW collection days will be promoted through several of the public education BMPs including the City’s Website (PEI-2), PSAs (PEI-5) and newspaper notices.		
<b>Appropriateness of BMP</b> <input checked="" type="checkbox"/> Yes <input type="checkbox"/> No If No: <input type="checkbox"/> Changes Proposed <input type="checkbox"/> NOC Submitted Date	<b>ACTIVITIES PLANNED FOR NEXT REPORTING PERIOD</b> <ul style="list-style-type: none"> <li>• Continue to host Annual Collection Day</li> <li>• Advertise in Newspaper, web page, and PSA</li> <li>• Document quantity of material collected</li> </ul>

### **City of Temple to host Household Hazardous Waste Collection Event**

TEMPLE, TX – October 7, 2013 –The City of Temple, in cooperation with Waste Management-Temple Landfill, Keep Temple Beautiful, Inc., Temple Iron & Metal and the Central Texas Council of Governments, will be hosting a Household Hazardous Waste Collection event on Saturday, October 12<sup>th</sup> from 9:00 a.m. – 2:00 p.m. The collection will be held at the Temple Service Center located at 3210 East Avenue H and residents living in Bell, Coryell, Hamilton, Lampasas, Milam, Mills and San Saba counties are invited to participate.

You may bring any of the following: tile, toilet, oven and drain cleaners; polishes, ammonia, paints, stains, varnishes, paint thinners and/or removers, aerosol spray cans, pesticides, herbicides, insect repellants, fungicides, pool chemicals, automotive batteries, used oil & oil filters, old gasoline, transmission fluid, brake fluid, antifreeze and up to 8 passenger tires. A \$1.00 surcharge will be placed on each tire over the limit. No tires on rims and no tires larger than 21.5-inch rim dimension. Electronics and computer equipment will also be accepted. These items include hard drives, CD ROMs, computer towers, mice, keyboards, toner cartridges, power supplies, battery backups, printers, scanners and cell phones. Other electronics include almost everything that plugs in.

This upcoming Household Hazardous Waste collection is an opportunity for residents to dispose of these household hazards properly. The event offers a better alternative to throwing the materials in your household garbage to be disposed of in the landfill or igniting in the garbage truck causing a fire.

PROHIBITED items for this event include: infectious and medical wastes, biological and radioactive materials, compressed gas cylinders, ammunition, fire extinguishers, smoke detectors and explosives. No commercial waste will be accepted as this event is for home hazards only, with the exception of electronics.

Funding for this event is being made possible by Waste Management-Temple Landfill and also with a grant from the Central Texas Council of Governments Solid Waste Advisory Committee. Each year various public entities in the seven-county region compete for this grant funding. The City of Temple appreciates the opportunity of being selected to host this type of event for our citizens and surrounding communities.

For more information or questions, you may contact the City of Temple Solid Waste Services at (254) 298-5725 or (254) 931-2487.

###

HOUSEHOLD HAZARDOUS WASTE COLLECTION  
October 12, 2013

You are invited to bring your household hazardous waste products to our annual collection event to be held on Saturday, October 12 from 9:00am – 2:00pm at the Temple Service Center. Acceptable items include: paints, automobile batteries, used motor oil, antifreeze, household cleaners, household chemicals, pesticides, flammables, corrosives, old mercury thermometers and electronics.

You can also bring up to 8 tires for free. A \$1.00 surcharge will be placed on each tire over the limit. No tires with rims please and no tires over 21.5" in diameter.

Prohibited items include: compressed gas cylinders, ammunition, fire extinguishers, smoke detectors, explosives, biological and radioactive materials, and infectious and medical wastes.

If you have questions, please do not hesitate to contact the City's Solid Waste Services Division. We hope to see you there. This event is open to all residents of Bell, Coryell, Hamilton, Lampasas, Milam, Mills, and San Saba counties.

# Household Hazardous Waste Collection

**October 12th 2013 - 9:00am to 2:00pm**

**3210 East Avenue H, Temple, Texas**

Accepting electronics, paints, automobile batteries, motor oil, antifreeze, household cleaners, household chemicals, pesticides, flammables, corrosives, and other hazardous household products.

**Open to all residents of Bell, Coryell, Hamilton, Lampasas, Milam, Mills, and San Saba counties.**

**PARTICIPANTS MUST SHOW PROOF OF RESIDENCY (DRIVER'S LICENSE, WATER BILL, ETC.)**

Hi Lisa,

Here are the numbers for the commodities from Saturday.

Oil – 414 Gallons

Antifreeze – 52 gallons

Batteries – None – Reason: Other company took all batteries. Billy thought he was supposed to get them.

Have a wonderful weekend and enjoy the cooler weather! ☺

Hi Cindy –

I am doing some final numbers from our Saturday Household Hazardous Waste event.

Will you give me the numbers that TI&M collected on Saturday for the used oil, filters, batteries, antifreeze, etc.????

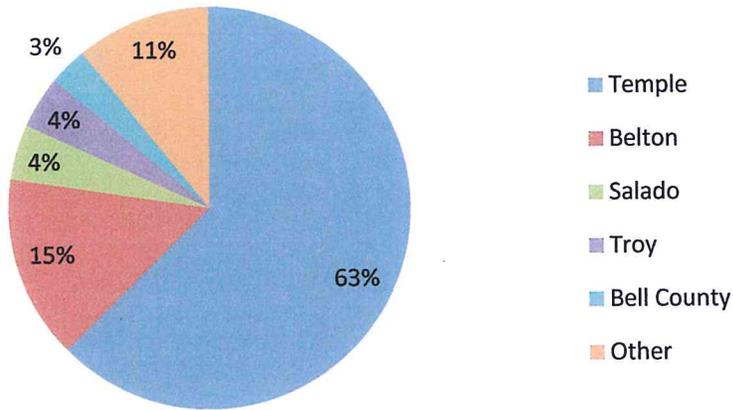

Thank you much – I appreciate the help and appreciate you all being our partner.

## Where are you from?

360 total attendees

50% have been to a HHW event before.  
50% were first-timers

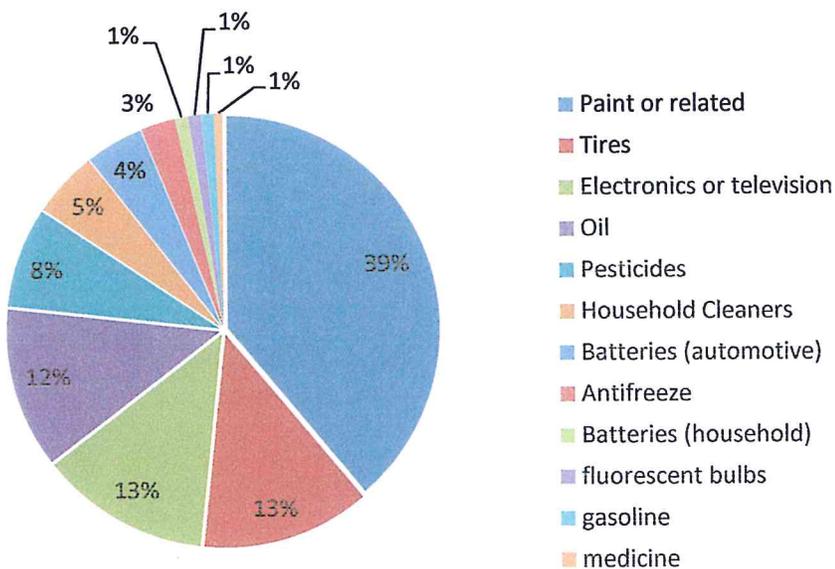

## How did you find about us?

When asked whether they would be willing to pay to dispose of Household Hazardous Waste, **93%** answered **Yes**.

Of those who answered Yes, the amount they would be willing to pay averaged to **\$5.68**.

## What did you bring?

Verbal answers tended to be along the lines of:

- “base it on the size of the carload”
- “make it dependent on the type of waste”
- “make it a different rate if you live within the city limits”.

# Summary of Temple Household Hazardous Waste Event

October 11, 2014

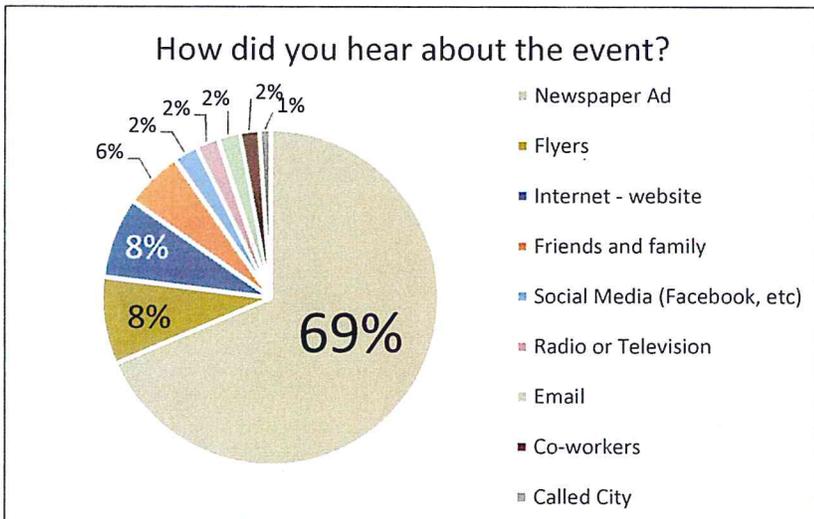

256 people brought paint or related materials like thinner or brushes.  
**Most people brought a variety of waste.**

We surveyed **465** cars as they entered.

**89.9%** of people attending came from Temple, Belton or Troy.  
 One person drove all the way from Cherokee, TX.

**46%** of the people had never been to an HHW event before.

69% of participants read about it in the local newspaper. The other sources were fairly spread out between verbal communication and electronic formats.

**92%** are willing to pay a small fee to ensure that this program continues.  
 On average, they would pay \$7.00 to dispose of their waste.

# STORM WATER MANAGEMENT PROGRAM – ANNUAL REPORT

	<b>REPORTING PERIOD:</b> <b>DECEMBER 13, 2013 – DECEMBER 12, 2014</b>	<b>YEAR 1</b>
	<b>USED OIL COLLECTION &amp; RECYCLING</b>	<b>ID-7</b>
<p><b>Responsible Authority</b>                  *Fleet Services                  Solid Waste                  Storm Water Program</p> <p><b>Appropriateness of BMP</b>  <input checked="" type="checkbox"/> Yes    <input type="checkbox"/> No                  If No:  <input type="checkbox"/> Changes Proposed  <input type="checkbox"/> NOC Submitted Date _____</p> <p><b>Measurable Goal Successfully Implemented?</b>  <input checked="" type="checkbox"/> Yes    <input type="checkbox"/> No</p>	<p><b>BMP DESCRIPTION</b></p> <p>The City of Temple currently collects and recycles used oil from vehicle maintenance at the Fleet Service Center. Used oil from citizens is also accepted. This greatly reduces the City's disposal costs while also ensuring that the waste oils are not discharged into the local sewer system or creeks and waterways.</p> <p>The Recycling Center is open to the public but needs to be advertised. This program will incorporate an educational component for the City employees and the public. Several of the public education BMPs including the City's Storm Water Web Site (PEI-2) and PSAs (PEI-5) will be used to inform citizens of the environmental concerns of improper disposal of waste oils and disposal alternatives that are available.</p>	
	<p><b>ACTIVITIES PLANNED FOR NEXT REPORTING PERIOD</b></p> <ul style="list-style-type: none"> <li>• Advertise (Web page, PSA and brochure)</li> <li>• Document used oil disposal</li> </ul>	
	<p><b>PROPOSED CHANGE</b>                  None</p>	
<p><b>PROGRESS DURING CURRENT REPORTING PERIOD</b></p> <p>The City tracked the quantity of used oil and oil filters that were recycled by Fuel Blenders Inc. The public will also be able to find more Information for proper disposal of waste items on the SWMP web page. The public service announcement is currently advertising waste collection to be recycled on the City's dedicated channel. The City also installed a pilot program for curb-side recycling which was showcased via website as well. Also, updated web pages were done for both Recycle Centers.</p>		
<b>Implementation Activity</b>	<b>Measurable Goal</b>	<b>Completion Date</b>

# ONE CART NO BAGS MIX ALL YOUR RECYCLABLES TOGETHER

★ **Temple Recycles** ★

The City of Temple is pleased to present you with your 96-gallon cart for the Curbside Recycling program.

This green colored cart allows the City to use existing resources to provide curbside recycling service.

The curbside recycling program, also known as "single stream recycling," allows these valuable resources to be diverted from the landfill. You can now recycle paper, junk mail, magazines, most plastics (#1 through #7), aluminum and steel cans, and boxes, such as cereal, cookies, crackers, etc. All of these items may be combined in the cart, making it easier than ever to recycle.

Containers Codes #1-#7 (see code on bottom of containers)

## WHY DOES RECYCLING MATTER?

Recycling is good for the environment and the economy. Creating recycled materials takes less energy than using raw materials providing revenue and helping prevent increased landfill disposal costs.

We want to provide the best possible service at the lowest cost and appreciate your cooperation in keeping contaminants out of the cart. Proper cart placement is essential to efficient service.

Please take a moment to review this brochure and familiarize yourself with what is acceptable to recycle and how the green cart works. Keep this brochure as a handy guide to help educate everybody about recycling.

Thank you for your participation,  
City of Temple Solid Waste Department.

# HERE'S HOW IT WORKS!

## 3 EASY STEPS

### TO USE YOUR RECYCLING CART

#### 1. Put Only Recyclables in Your Green Cart

All recyclable items—paper, plastic, and metal—need to be mixed together loosely in one cart for collection. Please read the list of acceptable items and ensure that only these items are listed in the green cart. Keep contaminants OUT of your recycling cart. Contamination is costly and can lead to an increase in garbage rates.

*Note: Recycling carts with repeat problems of contamination will be removed. Removal of the cart does not grant a second trash day.*

#### 2. Load the Cart Loosely

Break down large pieces that can jam in the cart and prevent it from emptying, such as cardboard boxes. Do not pack the cart tightly as it will not empty completely. Please DON'T separate items or put them into a plastic bag, paper bag, or "nest" items inside each other.

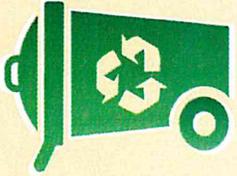

#### 3. Place Your Recycling Cart Properly at the Curb

Carts must be placed at the curb no later than 7:00 am on your collection day. For carts on alley service, carts placed in the alley should be located on the same side as the garbage carts. Carts should be removed and stored beside the house no later than 8:00 pm.

### RECYCLING CART PLACEMENT

Please place your cart at least 6 feet away from all surrounding items at the curb. These include: cars, mail boxes, fences, fire hydrants, and basketball hoops.

The cart should be placed with the wheels immediately against the curb. For those on alley service, the cart should be placed on the same side as the trash can. Please ensure that the recycling cart is removed no later than 8:00 pm on collection day.

**Keep Carts 6 Feet Away From:**  
Mailboxes, other carts, parked cars, fire hydrants and utility poles

**Keep Carts 14 Feet Away From:**  
Low hanging trees or shrubs and electrical / utility lines

### DON'Ts — RECYCLE CURBSIDE:

Please DON'T put these contaminants in your recycling cart. They either tangle in equipment, lower the value of recyclables or they are not recyclable:

- NO Garbage
- NO plastic bags (shopping or animal food bags)
- NO styrofoam: cups; fast food boxes; or packaging peanuts
- NO aluminum foil or pie plates
- NO glass (bottles, Pyrex, light bulbs, or mirrors)
- NO aerosol cans, paint cans, motor oil, antifreeze, syringes
- NO clothing
- NO plastic toys
- NO plastic lawn furniture or tubs
- NO scrap metal (pots & pans, lawn chairs, pipe, etc.)
- NO wire, rope, chain, fishing line, or garden hose
- NO electronics
- NO yard waste including grass clippings and all wood types
- NO containers or paper products with food residue (napkins, paper plates, paper towels, diapers, etc.)

### DO's — RECYCLE CURBSIDE:

#### PAPER PRODUCTS

Mixed paper, newspaper, magazines, office paper, junk mail, telephone directories, paperback books\*, cardboard, paper towel/toilet paper cores, and detergent boxes. Shredded paper can be loose, in a paper bag, or in a box. Remove plastic wrapping or bag around newspaper or magazine. Remove all plastic liners, packaging & packing peanuts. Flatten cardboard boxes. Paper grocery bags are OK!

#### PASTEBORD BOXES

Cereal, Kleenex, cake mix, crackers, food boxes, and shoe boxes. Be sure to remove all plastic liners and packaging materials.

*Note: Paperback books, hardback books, and other reading materials can be donated to the Friends of the Library 254-298-5556.*

#### PLASTICS

Most plastics #1 to #7. Beverage containers, such as soda bottles, water bottles, and milk jugs. Food containers and detergent bottles. Labels are okay. All plastics must be rinsed clean. Lids are also recyclable. Don't include plastic bags or styrofoam. NO motor oil or antifreeze.

#### METALS

Includes aluminum cans, steel cans, pet food cans, and other non-hazardous product containers made of aluminum, tin, or steel. Labels are okay. Please empty and rinse clean. NO aluminum foil or pie plates.

### HOW TO RECYCLE ITEMS NOT ACCEPTED

**Glass** — (Clear and Brown only) Glass can be taken to either recycling center. These are located at: 3015 Bullseye Lane and 602 Jack Baskin Drive.

**Yard Waste** — 6 cubic yards of brush can be placed at the front curb. Grass and leaves can be recycled on your yard or bag and place at curb for bulk pickup.

**Plastic Bags** — These can be recycled at many local store accepting plastic bags..

**Hazardous Materials** — The City holds a Household Hazardous Waste (HHW) Collection Day in October annually.

**Electronics** — Electronics are usually collected during the HHW event or other special events.

**Tire Collection** — Tires, antifreeze, oil filters, and oil are collected year round by the Solid Waste Department. Special events involving Tire Collection include: HHW, the annual Tire Recycling Event and special events throughout the year.

	<b>REPORTING PERIOD:</b> DECEMBER 13, 2013 – DECEMBER 12, 2014		<b>YEAR 1</b>
	<b>EROSION CONTROL (EC) SITE PLAN REVIEW</b>		<b>C-1</b>
<b>Responsible Authority</b> *Construction Safety/Permitting Engineering/Storm Water Program	<b>BMP DESCRIPTION</b> As part of their plan review procedures, the City of Temple will implement an erosion control permitting process, which includes reviews of construction plans for both builders and developers. The City will also develop procedures to catalog Construction General Permits (CGP), Storm Water Pollution Prevention Plans (SWPPP) and Notice of Intents (NOI) that are submitted to the City under the TPDES CGP.		
	<b>Appropriateness of BMP</b> <input checked="" type="checkbox"/> Yes <input type="checkbox"/> No If No: <input type="checkbox"/> Changes Proposed <input type="checkbox"/> NOC Submitted		
	<b>ACTIVITIES PLANNED FOR NEXT REPORTING PERIOD</b> <ul style="list-style-type: none"> <li>• EC site plan review</li> <li>• Track active construction sites</li> </ul>		
<b>Measurable Goal Successfully Implemented?</b> <input checked="" type="checkbox"/> Yes <input type="checkbox"/> No	<b>PROPOSED CHANGE</b> None		
<b>PROGRESS DURING CURRENT REPORTING PERIOD</b> The City of Temple tracks and monitors all construction projects within the city limits. The Storm Water Management Program reviews all Storm Water Pollution Prevention Plans and Storm Water Management Plans, conducts field inspections, tracks and monitors NOI's, NOC's and NOT's.			
<b>Implementation Activity</b>		<b>Measurable Goal</b>	<b>Completion Date</b>

Documentation Attached

List of Attachments: Inspection Procedures, Inspection Report Form, List of Inspections & Reports, and Building Permits

## **Storm Water BMP (Best Management Practices) Inspection Procedures**

### **Documentation**

1. Maintain an "Active Construction Sites" list – as NOI's (notice of intent) and NOT's (notice of termination) are received, update list with information pertaining to the project.
2. Assure that a SWPPP (storm water pollution prevention plan), CSN (construction site notice) and an NOI are received before construction starts if applicable.
3. Review all information submitted and submit comments to the company that submitted the documentation. Enforce them to make appropriate changes requested, if any.

### **On-Site Inspection**

1. Check all erosion and sedimentation controls for proper installation and that they are being maintained (repaired or replaced as necessary).
2. Inspect exits/entrances for proper installation and effectiveness. Look for other areas where vehicles and equipment are exiting and entering the work site without a proper exit/entrance installed.
3. Check for spill control measures and good housekeeping practices. Check concrete washout area if applicable.
4. Check for any additional BMP's (best management practices) that need to be installed on site to prevent pollution to storm water.
5. Take photos of any concerns that need to be addressed by the permittee.

### **Report**

1. Complete the "Inspection Reporting Form" to address any concerns or requirements for the permittee to comply with.
2. Attach pictures that were taken during the on-site inspection to the report.
3. Mail the report to the developer or other storm water contact person (usually specified in the SWPPP).

**Storm Water Pollution Prevention Plan Site Inspection Report**

Site Inspection Date: \_\_\_\_\_

Active Construction Site Name: \_\_\_\_\_

Acres: \_\_\_\_\_

Owner or Operator Name: \_\_\_\_\_

Date & Amount of Last Rainfall Event: \_\_\_\_\_

# STORM WATER MANAGEMENT PROGRAM – ANNUAL REPORT

	<b>REPORTING PERIOD:</b> DECEMBER 13, 2013 – DECEMBER 12, 2014	YEAR 1
	<b>RECEIPT AND CONSIDERATION OF INFORMATION FROM PUBLIC</b>	C-3
<b>Responsible Authority</b> *Storm Water Program Drainage Division Construction Safety	<b>BMP DESCRIPTION</b> The City of Temple will utilize the existing Storm Water Management Program phone line as a storm water hotline for citizens to report potential violations related to construction activities. This hotline will be aggressively promoted through several of the previously mentioned public education BMPs. Storm Water Program and/or Drainage Division personnel will respond and investigate these calls. Temple will also establish a location on their website for citizens to email these concerns or potential violations to City staff	
<b>Appropriateness of BMP</b> <input checked="" type="checkbox"/> Yes <input type="checkbox"/> No If No: <input type="checkbox"/> Changes Proposed <input type="checkbox"/> NOC Submitted Date _____	<b>ACTIVITIES PLANNED FOR NEXT REPORTING PERIOD</b> <ul style="list-style-type: none"> <li>Publicize storm water hotline</li> <li>Track complaint investigations from hotline</li> </ul>	
<b>Measurable Goal Successfully Implemented?</b> <input checked="" type="checkbox"/> Yes <input type="checkbox"/> No	<b>PROPOSED CHANGE</b> None	
<b>PROGRESS DURING CURRENT REPORTING PERIOD</b> The City of Temple tracks and monitors public complaints from different departments including Streets, Solid Waste and Utility Services Departments. The Drainage Division receives and tracks public issues dealing with flooding and stormwater infrastructures. The Construction Safety Department also receives public complaints and investigates all calls received by their office.		
<b>Implementation Activity</b>	<b>Measurable Goal</b>	<b>Completion Date</b>
<ul style="list-style-type: none"> <li>Publicize stormwater hotline</li> <li>Track complaint investigations from hotline</li> </ul>	<ul style="list-style-type: none"> <li>Web page screen capture</li> <li>Complaints &amp; Investigations</li> </ul>	4/29/2014

**Subject:** FW: Website

I'm not sure if you received this from Heather.  
I will be needing to add some more information to the Storm Water Web Page once this is fixed.

On the left where it has 3 links (Public Education, Public Involvement & Illicit Discharge) I need to add one that says Construction. There is a link on the Public Education page that says "Storm water and the Construction Industry, Best Management Practices". I need that to be under the Construction link. I also need it to have my contact information along with this wording: Storm Water Hotline for citizens to report potential violations related to construction activity, (on the construction page also).

Please let me know if you need better information or if this doesn't make since to you.  
Thank you very much for your help.

**STORM WATER MANAGEMENT PROGRAM – ANNUAL REPORT**

	<b>REPORTING PERIOD:</b> DECEMBER 13, 2013 – DECEMBER 12, 2014	YEAR 1
	<b>POST-CONSTRUCTION ORDINANCE</b>	PC-1
<b>Responsible Authority</b> * Engineering	<b>BMP DESCRIPTION</b> Temple developed an ordinance to address post-construction runoff from new development and redevelopment projects to the extent allowable under State and local law. This ordinance provided for the requirement of post-construction BMPs and identification of the Creek Buffer Zone. Per TCEQ requirements, the City will continue to report enforcement actions taken in regards to this ordinance.	
<b>Appropriateness of BMP</b> <input checked="" type="checkbox"/> Yes <input type="checkbox"/> No If No: <input type="checkbox"/> Changes Proposed <input type="checkbox"/> NOC Submitted Date _____	<b>ACTIVITIES PLANNED FOR NEXT REPORTING PERIOD</b> <ul style="list-style-type: none"> <li>• Enforce ordinance</li> <li>• Track citations</li> </ul>	
<b>Measurable Goal Successfully Implemented?</b> <input checked="" type="checkbox"/> Yes <input type="checkbox"/> No	<b>PROPOSED CHANGE</b> None	
<b>PROGRESS DURING CURRENT REPORTING PERIOD</b> The City of Temple implemented a new Post-Construction ordinance entitled "Post Construction Storm Water Runoff Control". The ordinance covered the Storm Water Management Plan and its' requirements, Design Criteria, Creek Buffer Zones, Inspection, Maintenance, and Enforcement. The Drainage Control and Design Manual (DCDM) was updated with this information and provided new designs.

	<p align="center"><b>LONG TERM OPERATION AND MAINTENANCE OF BMPs</b></p>	<p align="center">PC-2</p>
<p><b>Responsible Authority</b> * Engineering</p>	<p><b>BMP DESCRIPTION</b></p> <p>The TPDES Small MS4 general permit requires cities to provide for the long-term operation and maintenance of the post-construction BMPs that are constructed in new development and redevelopment projects that disturb areas of one acre or greater.</p> <p>The effectiveness of a BMP can be significantly reduced by the lack of maintenance. The City assumes responsibility for maintenance of residential detention basins following construction. If a maintenance issue is identified, the Drainage Division of the Street Department will perform the actual maintenance activities. The Drainage Division is also responsible for the maintenance of storm water drainage infrastructure, including creeks, concrete drainage flumes, grassed detention ponds, and grassy drainage easements. Proper maintenance of the post-construction BMPs requires knowing the location of each BMP to be maintained and a regular inspection process. This City's GIS personnel will develop and maintain GIS coverage of post-construction BMPs in the City.</p>

**STORM WATER MANAGEMENT PROGRAM – ANNUAL REPORT**

	<b>REPORTING PERIOD:</b> DECEMBER 13, 2013 – DECEMBER 12, 2014	YEAR 1
	<b>STORM WATER POLLUTION PREVENTION TRAINING</b>	
<b>Responsible Authority</b> * Engineering	<b>BMP DESCRIPTION</b> As required by the TCEQ permit, the City will implement annual training for MS4 staff. Staff who will be trained includes: Permitting, Public Works, Engineering, Parks and Leisure Services, Code Enforcement, Utility Services, Solid Waste, Fleet Services, Construction Safety, Street Services and Drainage Division. These trainings will focus on informing and training staff to do the job duties related to construction program and training staff to recognize signs of illicit discharge/illegal dumping. The City will develop a BMP/ Standard Operations (BMP/SO) manual (GH-2) for use by City staff.	
<b>Appropriateness of BMP</b> <input checked="" type="checkbox"/> Yes <input type="checkbox"/> No If No: <input type="checkbox"/> Changes Proposed <input type="checkbox"/> NOC Submitted Date _____	<b>ACTIVITIES PLANNED FOR NEXT REPORTING PERIOD</b> <ul style="list-style-type: none"> <li>• Develop training material for city staff.</li> </ul>	
<b>Measurable Goal Successfully Implemented?</b> <input checked="" type="checkbox"/> Yes <input type="checkbox"/> No	<b>PROPOSED CHANGE</b> None	
<b>PROGRESS DURING CURRENT REPORTING PERIOD</b> The City of Temple has found and developed training material to be presented to several city departments on Storm Water education in the following years of the SWMP.

Ms. Terry Rodriquez  
City of Temple  
3210 E. Avenue H  
Temple, Texas 76501

Dear Ms. Rodriquez:

Below is a breakdown of the items and costs for your online purchase of stormwater DVDs:

1 each	Preventing Storm Water Pollution: What Can We Do	\$75.00
1 each	Illicit Discharge Detection and Elimination	\$25.00
1 each	Construction Stormwater Awareness	\$25.00
1 each	Shipping/handling	\$ 1.25

This brings your total credit card charge to \$126.25. The receipt was sent to you via email.

On behalf of the North Central Texas Council of Governments, thank you for your interest in our stormwater program.

Sincerely,

Elizabeth Zecckine  
Administrative Assistant

**STORM WATER MANAGEMENT PROGRAM – ANNUAL REPORT**

	<b>REPORTING PERIOD:</b> DECEMBER 13, 2013 – DECEMBER 12, 2014	YEAR 1
	<b>BMP/SO MANUAL FOR CITY FACILITIES</b>	GH-2
<b>Responsible Authority</b> * Storm Water Program	<b>BMP DESCRIPTION</b> A Best Management Practices/Standard Operating (BMP/SO) Manual has been developed by the City's Storm Water Program for use by municipal employees and facility managers. Incorporating these standards into the day-to-day operation of the City facilities will help to keep the municipal storm system clean, and also serve to keep the City in compliance with the Texas Commission for Environmental Quality's (TCEQ) storm water regulations.	
<b>Appropriateness of BMP</b> <input checked="" type="checkbox"/> Yes <input type="checkbox"/> No If No: <input type="checkbox"/> Changes Proposed <input type="checkbox"/> NOC Submitted Date _____	<b>ACTIVITIES PLANNED FOR NEXT REPORTING PERIOD</b> <ul style="list-style-type: none"> <li>Evaluate BMP/SO effectiveness and update manual</li> </ul>	
<b>Measurable Goal Successfully Implemented?</b> <input checked="" type="checkbox"/> Yes <input type="checkbox"/> No	<b>PROPOSED CHANGE</b> None	
<b>PROGRESS DURING CURRENT REPORTING PERIOD</b> Make minor changes and updates to the manual. Assure that all City owned or operator facilities that require a storm water permit have coverage with TCEQ and document permit numbers.		
<b>Implementation Activity</b>	<b>Measurable Goal</b>	<b>Completion Date</b>
<ul style="list-style-type: none"> <li>Evaluate BMP/SO effectiveness and update manual</li> </ul>	<ul style="list-style-type: none"> <li>Update Manual pages</li> </ul>	7/11/2014

Documentation Attached

List of Attachments: Updated BMP/SO Manual & City owned or operated facilities that require storm water permits.

**CITY OF TEMPLE**  
**Best Management Practices/Standard Operations & Maintenance Manual**

**Acknowledgement**

BMP/SO Manuals are required to be provided for all permanent Stormwater quality best management practices (BMPs) installed on a site. The purpose of the BMP/SO manual is to provide information to the person or entity responsible for operation and maintenance of the facility to ensure that the facility is adequately maintained to function as designed. The information that is provided in the BMP Manual will help the maintenance operations specific to the type of facility; and will provide mechanisms for ensuring that the long-term maintenance of the facility is performed. This manual is to be practiced by each City department that contributes to the data that is compiled for the annual reports to satisfy the Storm Water Management Program BMP Good Housekeeping GH-2. The following Manual requirements have been put together to fulfill requirements submitted and adopted by the Texas Commission of Environmental Quality permit to the City of Temple for execution.

**1.0- Participating Departments**

The SWMP Tech will submit an Annual Report to TCEQ that requires data to be provided by numerous other departments within the City. The annual report consists of information and practices achieved during the actual permit year which is December 13<sup>th</sup> through December 12<sup>th</sup>. The following Departments are required to provide the information to the Storm Water Management Program for annual reporting to TCEQ.

- Streets
- Drainage
- Parks & Leisure
- Mapping (GIS)
- Code Enforcement
- Utility Services
- Solid Waste
- Fleet Services

**2.0- Information to be included:**

- Storm Drain System Map.
- Illicit Discharge Reports.
- Illegal Dumping Reports.
- Feet of Sewer Line Cleaned.
- Number of Unauthorized Discharges.
- Totals for Household Hazardous Waste & Used Oil Collection Events.
- Permits issued by the City of Temple.

- Drainage Channel and Detention Pond Mowing.
- Pesticide Applicator Licenses.
- Automotive Waste Manifests.
- Street Sweeping Miles.
- Dechlorination Forms.

### **3.0- Participation**

Each department in the City will practice what is learned from GH-1 Storm Water Pollution Prevention Training for City Employees. The information provided in that training will inform other departments on how to prevent storm water pollution using BMP's while on the job.

### **4.0- Emergency Action Plan**

- Special operating procedures to be followed during emergency condition resulting from extreme weather conditions or from structural failure of a facility.

# STORM WATER MANAGEMENT PROGRAM – ANNUAL REPORT

	<b>REPORTING PERIOD:</b> <b>DECEMBER 13, 2013 – DECEMBER 12, 2014</b>		<b>YEAR 1</b>
	<b>LANDSCAPE AND LAWN CARE</b>		<b>GH-3</b>
<b>Responsible Authority</b> <b>*Drainage Parks &amp; Leisure</b>  <b>Appropriateness of BMP</b> <input checked="" type="checkbox"/> Yes <input type="checkbox"/> No If No: <input type="checkbox"/> Changes Proposed <input type="checkbox"/> NOC submitted Date _____  <b>Measurable Goal Successfully Implemented?</b> <input checked="" type="checkbox"/> Yes <input type="checkbox"/> No	<b>BMP DESCRIPTION</b>  This program focuses on education and certification of municipal employees to reduce water quality impacts from fertilizers and pesticides. It provides education on proper storage and application techniques. This certification program may provide information on alternative pest control techniques and explain dosage calculations. The certification program is administered by the Texas Department of Agriculture and requires an annual exam and continuing education credits for recertification. The City has employees that are licensed applicators and will continue to require their applicators to obtain annual training and certification.		
	<b>ACTIVITIES PLANNED FOR NEXT REPORTING PERIOD</b> <ul style="list-style-type: none"> <li>• Copy of licenses</li> </ul>		
	<b>PROPOSED CHANGE</b> None		
<b>PROGRESS DURING CURRENT REPORTING PERIOD</b>  The City of Temple has applicators licensed to administer Herbicide. Attached are the licenses currently in active status.			
<b>Implementation Activity</b>		<b>Measurable Goal</b>	<b>Completion Date</b>
<ul style="list-style-type: none"> <li>• Annual training for applicators</li> <li>• Document training and copies of licenses</li> </ul>		<ul style="list-style-type: none"> <li>• Copy of licenses</li> </ul>	5/27/2014

## **Terri Rodriguez**

---

**From:** Terri Rodriguez  
**Sent:** Tuesday, May 27, 2014 1:03 PM  
**To:** Kevin Beavers  
**Subject:** Pesticide Applicator License

I need a copy of the Pesticide Applicator Licenses for the employees that have them. This is part of my requirements to provide to TCEQ.

Thank you!

Terri Rodriguez  
Stormwater Program Technician  
City of Temple  
phone (254)298-5625  
fax (254)298-5661  
[trodriguez@templetx.gov](mailto:trodriguez@templetx.gov)

Applicators are required to keep certificates of completion for 12 months following renewal of a license. 4 TAC§7.24(s)

Regulations and statutory provisions governing pesticide applicator licensees and their use of pesticides may be found in Chapter 7, Title 4, of the Texas Administrative Code and Chapter 76 of the Texas Agriculture Code, respectively. TDA's web site provides convenient links to these laws. Failure to comply with these laws, including misuse of any pesticide, may result in revocation, suspension, modification, or probation of your license and/or assessment of monetary administrative penalties.

If you have questions regarding your license, please contact our Austin headquarters toll free at (877) LIC-AGRI (877-542-2474), or visit our web site at [www.tda.state.tx.us](http://www.tda.state.tx.us). For the hearing impaired, you may call Relay Texas (800) 735-2988 (voice) or (800) 735-2989 (TDD) or visit our web site.

# STORM WATER MANAGEMENT PROGRAM – ANNUAL REPORT

	<b>REPORTING PERIOD:</b> DECEMBER 13, 2013 – DECEMBER 12, 2014	<b>YEAR 1</b>
	<b>VEHICLE MAINTENANCE</b>	<b>GH-4</b>
<b>Responsible Authority</b> *Fleet Storm Water Management Program  <b>Appropriateness of BMP</b> <input checked="" type="checkbox"/> Yes <input type="checkbox"/> No If No: <input type="checkbox"/> Changes Proposed <input type="checkbox"/> NOC submitted Date _____  <b>Measurable Goal Successfully Implemented?</b> <input checked="" type="checkbox"/> Yes <input type="checkbox"/> No	<b>BMP DESCRIPTION</b> The City of Temple performs vehicle maintenance on all City owned and operated vehicles at the City Service Center, which includes such preventative maintenance services as automotive fluid changes and tire and battery replacement. The City operates an oil/water separator for a central floor drain from the fleet maintenance area. The oil/water separator requires periodic maintenance for optimal performance. The City will continue to maintain the oil/water separator and document these maintenance activities as part of their SWMP. The City also collects and recycles used motor oil from the fleet maintenance activities.	
	<b>ACTIVITIES PLANNED FOR NEXT REPORTING PERIOD</b> <ul style="list-style-type: none"> <li>Maintain oil/water separator</li> </ul>	
	<b>PROPOSED CHANGE</b> None	
<b>PROGRESS DURING CURRENT REPORTING PERIOD</b>  Fleet Services also maintains a variety of commercial vehicles including; dump trucks, tractors and crew cab pick-ups. The SWMP monitors and tracks two main items; Whole Used or Scrap Tire Manifest and the Automotive Waste Manifest.		
<b>Implementation Activity</b>	<b>Measurable Goal</b>	<b>Completion Date</b>
<ul style="list-style-type: none"> <li>Maintain oil/water separator</li> </ul>	<ul style="list-style-type: none"> <li>Maintenance logs for oil/water separator</li> </ul>	As Needed

**STORM WATER MANAGEMENT PROGRAM – ANNUAL REPORT**

	<b>REPORTING PERIOD:</b> <b>DECEMBER 13, 2013 – DECEMBER 12, 2014</b>		<b>YEAR 1</b>
	<b>ROADWAY CLEANING</b>		<b>GH-5</b>
<b>Responsible Authority</b> *Street Services	<b>BMP DESCRIPTION</b>  Roadway cleaning is a practice intended to reduce the amount of sediment, floatable debris, and other pollutants discharged to receiving streams. Current street sweeper technology enables the sweeper to pick up fine-grained sediment particles that carry a substantial portion of the storm water pollutant load.		
	The City of Temple has two Tymco Regenerative Street Sweepers and will continue to perform street sweeping and cleaning at the current frequency. The Street Department submits monthly reports to Public Works documenting the number of lane miles that have been swept.		
	<b>ACTIVITIES PLANNED FOR NEXT REPORTING PERIOD</b> <ul style="list-style-type: none"> <li>• Continue existing street sweeping</li> <li>• Document lane miles from monthly reports</li> </ul>		
<b>Appropriateness of BMP</b> <input checked="" type="checkbox"/> Yes <input type="checkbox"/> No If No: <input type="checkbox"/> Changes Proposed <input type="checkbox"/> NOC Submitted Date _____	<b>PROPOSED CHANGE</b> None		
<b>Measurable Goal Successfully Implemented?</b> <input checked="" type="checkbox"/> Yes <input type="checkbox"/> No	<b>PROGRESS DURING CURRENT REPORTING PERIOD</b>  The City of Temple Street Services currently operates two (2) Tymco 600 regenerative air street sweepers. The City logged approximately 1,337.5 hours of sweeping between August 2013 and November 2014. The City estimates that approximately <u>4,667.25</u> lanes miles of streets were swept during Permit Year 1.		
<b>Implementation Activity</b>	<b>Measurable Goal</b>	<b>Completion Date</b>	
<ul style="list-style-type: none"> <li>• Continue existing street sweeping</li> <li>• Document lane miles from monthly reports</li> </ul>	<ul style="list-style-type: none"> <li>• Monthly reports on lane miles</li> <li>• Sweep 2,400 lane miles</li> </ul>	Continuous throughout year

### **Year 1 (2013-2014) Report for BMP GH-5: Roadway Cleaning**

The City of Temple conducts cleaning of the roadways to reduce the amount of pollutants being discharged into receiving streams. The mileage cleaned is provided in a monthly report by the City of Temple's Street Division. The following table is a snapshot of the cleaning activities that were performed this fiscal year by the Street Division. In addition this summary report reflects the requirements by TCEQ to sweep 2,400 lane miles each fiscal year. The total for the Permit Year was 4,667.25 miles. The average cleaned per month is 291.7 miles, with a minimum of 43.5 and a maximum of 127. This also includes the months in between the end of the last permit term and the beginning of the new permit term.

**STORM WATER MANAGEMENT PROGRAM – ANNUAL REPORT**

	<p align="center"><b>REPORTING PERIOD:</b> DECEMBER 13, 2013 – DECEMBER 12, 2014</p>	<p align="center"><b>YEAR 1</b></p>
	<p align="center"><b>NON-STORM WATER DISCHARGES DECHLORINATION EQUIPMENT</b></p>	<p align="center"><b>GH-7</b></p>
<p><b>Responsible Authority</b> *Utility Services</p>	<p><b>BMP DESCRIPTION</b> Dechlorination equipment will be required to remove excess chlorine from wash water that is used to treat new water lines. The Utility Services Division of the Public Works Department performs super chlorination of new water lines and will use the dechlorination equipment to remove residual chlorine prior to discharge of water into the MS4.</p>	
<p><b>Appropriateness of BMP</b>  <input checked="" type="checkbox"/> Yes    <input type="checkbox"/> No                  If No:  <input type="checkbox"/> Changes Proposed  <input type="checkbox"/> NOC submitted Date _____</p>	<p>Dechlorination equipment will be made available to other departments such as the Parks and Leisure Services Department for use during pool maintenance and to treat backwash water from pool filtering equipment.</p>	
<p><b>Measurable Goal Successfully Implemented?</b>  <input checked="" type="checkbox"/> Yes    <input type="checkbox"/> No</p>	<p><b>ACTIVITIES PLANNED FOR NEXT REPORTING PERIOD</b></p> <ul style="list-style-type: none"> <li>• Use dechlorination equipment for water line flushing</li> </ul>	
	<p><b>PROPOSED CHANGE</b> None</p>	
<p><b>PROGRESS DURING CURRENT REPORTING PERIOD</b> The City of Temple's Utility Services department records usage of dechlorination equipment. This data is collected, monitored, and documented by the SWMP. The water department utilizes the equipment at designated flushes at various locations numerous times per month. The data collected consists of location, date, flush duration, number of filters used and approximate distance to nearest City Drainage Infrastructure.</p>		
<p align="center"><b>Implementation Activity</b></p>	<p align="center"><b>Measurable Goal</b></p>	<p align="center"><b>Completion Date</b></p>
<ul style="list-style-type: none"> <li>• Use dechlorination equipment for water line flushing</li> </ul>	<ul style="list-style-type: none"> <li>• Document equipment use</li> </ul>	<p align="center">Routine</p>

**STORM WATER MANAGEMENT PROGRAM – ANNUAL REPORT**

	<b>REPORTING PERIOD:</b> <b>DECEMBER 13, 2013 – DECEMBER 12, 2014</b>		<b>YEAR 1</b>
	<b>CITY-OWNED FACILITIES</b>		<b>GH-8</b>
<b>Responsible Authority</b> * Drainage Division Storm Water Program	<b>BMP DESCRIPTION</b> TCEQ requires all Level 3 MS4s to maintain an inventory of all City-owned facilities and their storm water controls. Inspections are to be conducted and facilities prioritized by their potential to generate storm water pollutants. High priority facilities are those which have a high potential to generate storm water pollutants. Standard operating procedures and storm water controls will be created for these high priority facilities. A map will be created indicating the location of each facility.		
	<b>Appropriateness of BMP</b> <input checked="" type="checkbox"/> Yes <input type="checkbox"/> No If No: <input type="checkbox"/> Changes Proposed <input type="checkbox"/> NOC Submitted Date		
	<b>ACTIVITIES PLANNED FOR NEXT REPORTING PERIOD</b> <ul style="list-style-type: none"> <li>• Develop Standard Operating Procedures (SOPs) for high priority facilities</li> <li>• Inspection of all facilities in inventory</li> </ul>		
<b>Measurable Goal Successfully Implemented?</b> <input checked="" type="checkbox"/> Yes <input type="checkbox"/> No	<b>PROPOSED CHANGE</b> None		
<b>PROGRESS DURING CURRENT REPORTING PERIOD</b>			
<b>Implementation Activity</b>		<b>Measurable Goal</b>	<b>Completion Date</b>
<ul style="list-style-type: none"> <li>• Develop City-owned facilities list.</li> <li>• Assess of facilities to determine high priority facilities.</li> </ul>		<ul style="list-style-type: none"> <li>• Facility inventory</li> <li>• List of high priority facilities</li> </ul>	6/3/2014

# High Priority Facilities

For Storm Water Pollution

**Legend**

- High Priority Facilities

6/4/2014  
1 inch = 5,000 feet

### C. Storm Water Management Program Status

		<b>STORM WATER MANAGEMENT PROGRAM – ANNUAL REPORT</b> December 13, 2013 – December 12, 2014		<b>TABLE 1 – YEAR 1 BMP STATUS</b>		
		The table below lists the implementation activities and measurable goals developed for each BMP for Year 1. See individual BMP sheet for details and documentation.				
BMP	Description	Implementation Activity	Measurable Goal	Status		
				New (N) or Revised (R)	Start Date	Status/Completion Date
PEI-1	Storm Water Education to Students	Update educational materials Public Works Week	Pictures of event and invitation to schools		12/13/13	5/19/14
PEI-2	Storm Water Web Site	Develop link to SWMP Maintain web-site link	1 SWMP link		12/13/13	12/8/14
PEI-3	Storm Water Brochures	Design a new brochure and door hanger	New brochure & door hanger		12/13/13	12/18/14
PEI-4	Utility Bill Inserts	Distribute 1 insert	Distribute 1 insert per water customer		12/13/13	6/13/14
PEI-5	Public Service Announcements	Create 6 Storm Water Public Service Announcements & broadcast them.	6 PSA's		12/13/13	See PSA's
PEI-6	Storm Drain Marking	Advertise program to organizations Hold/Sponsor 1 marking event Update marked inlet GIS coverage	At least 1 marking events		12/13/13	10/25/14
PEI-7	Reforestation Programs	Cosponsor 1 tree planting event Post event on activities calendar on website 1 media announcement (PSA)	Photos of event 1 webpage posting 1 PSA		12/13/13	1/18/14
PEI-8	Stakeholder Committee	Hold 1 stakeholder meeting to review annual report	Attendance sheet Meeting Minute		12/13/13	4/7/14
ID-1	Storm Drain System Map	Locate and map outfalls –GPS Update system map – All Watersheds	Updates system map All watersheds		12/13/13	7/29/14
ID-2	Dry Weather Screening	Walk accessible reaches Perform test for all watersheds Maintain tracking system and verify GIS map	Screening Map for all watersheds		12/13/13	7/29/14
ID-3	Illicit Discharge Investigations	Develop procedures for responding to illicit discharges and spills	Procedures for responding to illicit discharges and spills		12/13/13	6/24/14
ID-4	Reduce Illegal Dumping	Enforce ordinance/maintain tracking system Publicize with 1 PSA	1 PSA List of citations		12/13/13	3/11/14 & 4/5/14
ID-5	Reduce Sanitary Sewer Overflows	Cleaning/preventative maintenance Staff tracking of areas cleaned	Clean 270,000 linear feet/year		12/13/13	Routine
ID-6	Household Hazardous Waste Disposal	Continue to host annual collection day Advertise in newspaper, webpage, and PSA Document quantity of material collected	1 Web and newspaper posting and 1 PSA 1 HHW collection event Quantity of HHW collected		12/13/13	10/12/13 & 10/11/14
ID-7	Used Oil Collection & Recycling	Advertise (web page and PSA) Document used oil disposal	1 Web posting and 1 PSA Document disposal		12/13/13	10/12/13
C-1	Erosion Control Site Plan Review	EC site plan review Track active construction sites	Number of plans reviewed List of active sites		12/13/13	Routine

### C. Storm Water Management Program Status

<b>C-2</b>	Construction Inspection	Develop written inspection procedures and report form Perform construction inspections Track construction enforcement	Inspection procedures and report form List of inspection reports Enforcement list		12/13/13	2/21/14
<b>C-3</b>	Receipt and Consideration of Information from Public	Publicize storm water hotline Track complaint investigations from hotline	Webpage screen capture List of public comments and investigations		12/13/13	4/29/14
<b>PC-1</b>	Post-Construction Ordinance	Enforce ordinance	List of citations		12/13/13	Routine
<b>PC-3</b>	Long Term Operation and Maintenance of BMPs	BMP maintenance Update GIS coverage of permanent BMPs Track work orders	Update BMP map Maintenance Work Orders		12/13/13	Routine
<b>GH-1</b>	Storm Water Pollution Prevention Training	Develop training for City staff to recognize illicit discharge Develop training for City staff involved in construction projects	Training procedures/material		12/13/13	3/25/14
<b>GH-2</b>	BMP/SOP Manual for City Facilities	Evaluate BMP/SO effectiveness and update manual	Updated manual pages		12/13/13	7/11/14
<b>GH-3</b>	Landscape and Lawn Care	Annual training for applicators Document training and copies of licenses	Copies of licenses		12/13/13	5/27/14
<b>GH-4</b>	Vehicle Maintenance	Maintain oil/water separator	Maintain logs for Oil/Water separator		12/13/13	Monthly
<b>GH-5</b>	Roadway Cleaning	Develop implementation schedule and waste disposal procedures Continue existing street sweeping Document lane miles from monthly reports	Implementation schedule and waste disposal procedures Monthly reports on lane miles Sweep 2400 lane miles		12/13/13	Monthly
<b>GH-6</b>	Storm Drain System Cleaning	Continue inspection, cleaning, and maintenance Update maintenance/cleaning log Update BMP/SO manual for waste disposal (as needed)	Maintenance/cleaning log Updated BMP/SO pages		12/13/13	Monthly
<b>GH-7</b>	Non-Storm Water Discharges	Monitor Development of new Fire Training Facility Use dechlorination equipment for water line flushing	Photos of the fire training facility Document equipment use		12/13/13	Routine
<b>GH-8</b>	City-Owned Facilities	Develop facility and stormwater control inventory Assessment of facilities to determine high priority facilities	Facility and stormwater control inventory List of high priority facilities		12/13/13	6/3/14

### C. Storm Water Management Program Status

## STORM WATER MANAGEMENT PROGRAM – ANNUAL REPORT

December 13, 2014 – December 12, 2015

### Table 3 - Year 2 Planned Activities

The table below lists the Year 2 planned activities and measurable goals developed for each BMP.

BMP	Description	Year 2 Planned Activities	Year 2 Measurable Goal
PEI-1	Storm Water Education to Students	Update educational materials Educate students	Educate Temple ISD students at Public Works Week
PEI-2	Storm Water Web Site	Develop Annual Reports webpage Maintain web-site link	1 Annual Reports webpage
PEI-3	Storm Water Brochures	Print 1000 brochures Distribute brochures to kiosks	Distribute 1000 brochures
PEI-4	Utility Bill Inserts	Distribute 1 insert per water customer	Distribute 1 insert in 1 monthly bill for every water customer
PEI-5	Public Service Announcements	Select storm water messages Broadcast 6 storm water messages	6 PSA's
PEI-6	Storm Drain Marking	Advertise program to organizations Hold/Sponsor 1 marking events Update marked inlet GIS coverage	At least 1 marking event
PEI-7	Reforestation Programs	Cosponsor 1 tree planting event Post event on activities calendar on website 1 media announcement	1 webpage posting, 1 PSA & photos of event
PEI-8	Stakeholder Committee	Hold 1 stakeholder meeting to review annual report	Sign in sheet, meeting notes, presentation & invitation.
ID-1	Storm Drain System Map	Locate and map outfalls –GPS Update system map	Update system map
ID-2	Dry Weather Screening	Walk accessible reaches Perform test for all watersheds Maintain tracking system and verify GIS map	Screening Map for all watersheds
ID-3	Illicit Discharge Investigations	Develop procedures for tracing and removing illicit discharge sources Perform inspections	Procedures for tracing and removing illicit discharges List of investigation types and locations
ID-4	Reduce Illegal Dumping	Enforce ordinance/maintain tracking system Publicize with 1 PSA	1 PSA List of citations
ID-5	Reduce Sanitary Sewer Overflows	Cleaning/preventative maintenance Staff tracking of areas cleaned	Clean 270,000 linear feet/year
ID-6	Household Hazardous Waste Disposal	Continue to host annual collection day Advertise in newspaper, webpage, and PSA Document quantity of material collected	1 Web and newspaper posting and 1 PSA 1 HHW collection event Quantity of HHW collected
ID-7	Used Oil Collection & Recycling	Advertise (web page and PSA) Document used oil disposal	1 Web posting and 1 PSA Document disposal
C-1	Erosion Control Site Plan Review	EC site plan review Track active construction sites	Number of plans reviewed List of active sites
C-2	Construction Inspection	Perform construction inspections Track construction enforcement	List of inspection reports Enforcement list
C-3	Receipt and Consideration of Information from Public	Publicize storm water hotline Track complaint investigations from hotline	Webpage screen capture List of public comments and investigations
PC-1	Post-Construction Ordinance	Enforce ordinance	List of citations

### C. Storm Water Management Program Status

PC-2	Long Term Operation and Maintenance of BMPs	BMP maintenance Update GIS coverage of permanent BMPs Track work orders	Update BMP map Maintenance Work Orders
H-1	Storm Water Pollution Prevention Training	Provide training to new facility and maintenance staff Document training attendance	1 new employee training List of attendees/date
GH-2	BMP/SOP Manual for City Facilities	Evaluate BMP/SO effectiveness and update manual	Updated manual pages
GH-3	Landscape and Lawn Care	Annual training for applicators Document training and copies of licenses	Copies of licenses
GH-4	Vehicle Maintenance	Maintain oil/water separator	Maintain logs for Oil/Water separator
GH-5	Roadway Cleaning	Continue existing street sweeping Document lane miles from monthly reports	Monthly reports on lane miles Sweep 2400 lane miles
GH-6	Storm Drain System Cleaning	Continue inspection, cleaning, and maintenance Update maintenance/cleaning log Update BMP/SO manual for waste disposal (as needed)	Maintenance/cleaning log Updated BMP/SO pages
GH-7	Non-Storm Water Discharges	Use dechlorination equipment for water line flushing	Document equipment use
GH-8	City-Owned Facilities	Develop Standard Operating Procedures for high priority facilities Inspection of all facilities in inventory	SOPs for high priority facilities Inspection log

## C. Storm Water Management Program Status

### STORM WATER MANAGEMENT PROGRAM – ANNUAL REPORT

December 13, 2013 – December 12, 2014

### TABLE 2 – YEAR 1 MEASURABLE GOAL STATUS

The table below lists the measurable goals developed for each BMP for Year 1, success and proposed changes. See individual BMP sheet for details and documentation.

BMP	Description	Measurable Goal(s)	Success	Proposed Changes (submit NOC as needed)
PEI-1	Storm Water Education with NPS Models	Update educational material, Public Works Week.	Storm water education provided to 254 students from Temple ISD.	None
PEI-2	Storm Water Web Site	1 Storm Water Management link	Updated the Storm Water Website	None
PEI-3	Storm Water Brochures	Design a new updated storm water brochure.	Designed brochure and door hanger	None
PEI-4	Utility Bill Inserts	Distribute 1 insert	One insert per water customer in the June water bill.	None
PEI-5	Public Service Announcements	6 PSA's	PEI-1, PEI-6, PEI-7, ID-4, ID-6 & ID-7	None
PEI-6	Storm Drain Marking	At least 1 marking event	Hosted 1 event with the Boy Scouts participation.	None
PEI-7	Reforestation Programs	Host 1 event, post to city's website & 1 PSA.	25 trees were planted at Conner Park.	None
PEI-8	Stakeholder Committee	Attendance sheet, presentation, meeting notes and invitation	Reviewed SWMP before submittal.	None
ID-1	Storm Drain System Map	Updated system map All watersheds	Provide an updated system map of all watersheds in the City of Temple.	None
ID-2	Dry Weather Screening	Screening map For all watersheds	Screen all watersheds and provide testing results.	None
ID-3	Illicit Discharge Investigations	Procedures for responding to illicit discharges and spills	Develop procedures & investigate reports.	None
ID-4	Reduce Illegal Dumping	1 PSA List of citations	Ordinance enforced, 1 PSA & tire recycling event.	None
ID-5	Reduce Sanitary Sewer Overflows	Clean 270,000 linear feet/year	Cleaned 1,591,788 linear feet	None
ID-6	Household Hazardous Waste Disposal	1 HHW collection event 1 newspaper ad/webpage Quantity of HHW collected	The city hosted a Household hazardous waste event & documented amount collected.	None
ID-7	Used Oil Collection & Recycling	1 Web posting and 1 PSA Document disposal	Documentation of disposal & 1 PSA.	None
C-1	Erosion Control Site Plan Review	Number of plans reviewed List of active sites	Document & enforce the city's requirements for plans submitted.	None
C-2	Construction Inspection	Inspection procedures and report form List of inspections Enforcement list	Conduct storm water inspections on all active construction sites & enforce SWPPP requirements.	None
C-3	Receipt and Consideration of Information from Public	List of public comments and investigations	Publicize storm water hotline & track & investigate complaints.	None
PC-1	Post-Construction Ordinance	List of citations	Ordinance enforced and citations tracked.	None
PC-2	Long Term Operation and Maintenance of BMPs	Updated BMP map Maintenance Work orders	Mow detention ponds & drainage channels, create a map of maintained areas.	None

### C. Storm Water Management Program Status

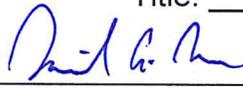

<b>GH-1</b>	Storm Water Pollution Prevention Training	Training procedures/materials	Purchased new material for training	None
<b>GH-2</b>	BMP/SOP Manual for City Facilities	Updated manual pages/MSGP permit coverage	Update manual and ensure that appropriate facilities are permitted.	None
<b>GH-3</b>	Landscape and Lawn Care	Copies of licenses	Maintain a copy of pesticide applicator licenses.	None
<b>GH-4</b>	Vehicle Maintenance	Maintenance logs Oil/water separator	Document maintenance on oil/water separator.	None
<b>GH-5</b>	Roadway Cleaning	Implementation schedule and waste disposal procedures Monthly reports on lane miles swept 2400 lane miles	Cleaned 4,667.25 lane miles	None
<b>GH-6</b>	Storm Drain System Cleaning	Maintenance/cleaning log Updated BMP/SO pages	Inspect, maintain and clean storm drains.	None
<b>GH-7</b>	Non-Storm Water Discharges	Document equipment use	Use dechlorinator for water line flushing.	None
<b>GH-8</b>	City-Owned Facilities	Facility and stormwater control inventory List of high priority facilities	Create a list of high priority facilities owned & operated by the City of Temple.	None

**D. Certification**

I certify under penalty of law that this document and all attachments were prepared under my direction or supervision in accordance with a system designed to assure that qualified personnel properly gathered and evaluated the information submitted. Based on my inquiry of the person or persons who manage the system, or those persons directly responsible for gathering the information, the information submitted is, to the best of my knowledge and belief, true, accurate, and complete. I am aware that there are significant penalties for submitting false information, including the possibility of fine and imprisonment for knowing violations.
